

Contents :

A Comprehensive Study On The Utilization Of Waste Glass As A 01-08
Partial Replacement For Fine Aggregate In Concrete

Corrosion Study Of Inconel 625 Coating Deposited By TIG Welding 09-17
On AISI 4130 Steel

Prediction Of Tensile Strength Of Chopped Carbon Fibre Reinforced 18-26
Polymer (CCFRP) Concrete

Review On The Role Of Carbon Fibre Reinforced Polymer (CFRP) 27-32
Composites In Sustainable Construction In Africa

Prediction Of Flexural Strength Of Nano-Silica Blended (NSB) 33-41
Concrete

Prediction Of Compressive Strength And Static Modulus Of 42-52
Elasticity Of Nano-Silica Blended Concrete

Experimental Study Of Paver Block Using Partial Replacement 53-61
Of Fly Ash And Quarry Dust
