

Contents:

A Comparative Study Of Bioethanol Precursors And Production Methods	01-08
Isolation And Identification Of Enzymes Associated With Pesticide Tolerance And Degradation	09-18
Comparative Phytochemical Analysis And Antioxidant Activity Of Marigold, Pink Periwinkle, And Butterfly Pea Flowers Using Methanol Solvent	19-25
Enhancing Extracellular Cordycepin Production In Engineered Pichia Pastoris Using Surfactants	26-30
Case Study: Comprehensive Review Of Ten Disease	31-34
Phytochemical Studies Of Balanites Aegyptiaca (Yellow Natural Hingot) Seed Ethanol Extract And Antioxidant Activity	35-39
Global Warming And Climatic Changes: Challenge Ahead And Sustainability	40-49
Determination Of Trace Elements (Co,Cu,Fe,Mn,Zn)In Some Selected Ayurvedic Medicines By ICP-OES	50-55
Ternary Elements In Nanotechnology	56-64
Analytical Description and Future Prospects of Plant Antifungal Proteins	65-75
