

Provenance of the Satanic Brotherhood: A Few More Details

(M. R. Pinheiro)\Twins of God¹

Abstract: We here tell a bit more about the biography of the unnamed author of the satanic bible and why they have exactly 33 degrees in the satanic brotherhood. We also tell a bit about some major crimes against human kind perpetrated by the satanic brotherhood: this time it is the start of the adoption of communism as national choice of philosophical ideology by earth countries, the supposed apparitions of Mary, mother of Our Saviour and Lord, Jesus Christ, in Fatima, Portugal, and the 'work' of the Masorettes, the men in charge, among others, of spelling the vowels when translating Aramaic/Hebrew into Aramaic/Hebrew, when of the formation of the Masoretic Text, which is the basis for the Hebrew bible. On the way to doing that, we end up acknowledging the passing of Tracy Chapman, presenting some evidence as to that having originally being the name of a white man of English ancestry who lost his life before the age of 5 years old and the usurpation of his ID in the ways of the satanic transgender experience, therefore by the satanic sisterhood. We also end up acknowledging the passing of Louis Armstrong as an event that happened way before the official death of the ID and hypothesizing that he was originally a white man whose biography in much disagrees with what is currently presented by popular encyclopaedias. We also acknowledge the passing of Friedrich Engels as having happened way before the death of his ID, probably in 1837, when he was 17 years old. We also acknowledge the passing of Vladimir Lenin as having been caused by murder when he was less than 10 years old and the perpetrator of all the murders we here report/acknowledge as being the satanic brotherhood/sisterhood. We also acknowledge the passing of Lucia dos Santos, Jacinta Marto and Francisco Marto as probably having occurred on the day of the first Mary's apparition in Fatima, and at most then, with the feminine IDs then becoming satanic transgender experiences. Besides, we present yet one more reason for Christians to never use the word 'amen' in their prayers, tell where the name Israel came from (demoniac origin), prove that Yahweh is not the name of Our God, the .God of Abraham, Isaac and Jacob, and tell what really happened to Moses (different from what is stated in the bible) and who he actually was.

I. Introduction

We gave some details about the history of the satanic bible as well as the biography of its author in [1]. Yet some doubts should have appeared in the mind of the reader, such as if the satanic brotherhood has exactly 33 degrees – the same number of degrees the replacement of Napoleon's brother, an African/African descent negro who is mentioned by the satanic brotherhood members with frequency, achieved - if the unnamed author of the satanic bible was born in Nubia or elsewhere, and why this number, 33, was chosen for the amount of degrees of pertinence to the satanic brotherhood. 33 is the age of Jesus Christ when the only human body of his humanity got to know about died [2], so that it is natural to wonder whether the degrees of the satanic brotherhood are connected to the lifespan of the human body that Jesus Christ is believed to have had while existing in human form.

We proved that Karl Marx got usurped [3] when he was 18 years old [4]. That means he had nothing to do with the Communist Manifesto, since that publication appears when he is supposed to be 29 years old (Co-pilot) and its nature frontally opposed the nature of his thinking before usurpation took place. See here: "Marxism and Communism frontally oppose each other: the ideas of Karl Marx serve the purpose of particularizing the way society sees the individual as much as possible, a unique creature of Our God in all senses, while the communist ideas serve the purpose of nullifying all possible individuality, so that the individual becomes so nothing that the state, which is an abstract entity, merges with his/her self." [4] It was then the satanic brotherhood member, therefore a black African male painted in white, that was 'playing' Karl

¹ Elsie.dunnam@yahoo.com

Marx at the time the Communist Manifesto was written (1848, according to Co-pilot). That was joint work and the other author was Friedrich Engels [5]: it is just that Friedrich Engels also lost his life before 1848 and therefore was not present when his name was appearing as that of the person who actually wrote the Manifesto with the usurper of Karl Marx's life. Usurpation seems to be something that is absolutely always connected to the satanic brotherhood in what comes to places outside of Egypt, so that these two usurpations also were.

Mary, mother of Our Jesus Christ, is told to have appeared six times in Fatima, Portugal, to exactly three human beings (Co-pilot) but we would like to say that we don't believe that she actually appeared in spirit there ever: the satanic brotherhood/sisterhood would have been responsible for all that. As evidence, we present logical argumentation and known facts (personal contact with the satanic brotherhood/sisterhood members).

The Masoretes look like something from outer space (anything this weird would be the satanic brotherhood/sisterhood for sure if happening in the last 2,625 years [1]): how can someone translate Aramaic/Hebrew into the own Aramaic/Hebrew, please? Besides, the Hebrew people were happy with their language up to that point and we know the satanic brotherhood had been attacking The Jews for at least 1,700 years [1] when the figure of the Masoretes appeared (about 700 CE, according to Co-pilot). They were the ones to introduce 'a system of vowel points and diacritical marks' (Co-pilot) to The Jews. 'Braganca'/the devil (after I guess, the satanic let me have access to the respective memories, so that we see that he did that) says that the satanic brotherhood didn't like the fact that there were no vowels in the communications of The Jews and that is then why they have done it.

In this paper, we talk about all the above plus the usurpation of the existence of Vladimir Lenin, who is the person who made communism appear in practice for the first time in human history (Bolshevik Revolution in 1917, Co-pilot).

II. Development

The choice of 33 degrees for the satanic brotherhood has to do exclusively with the angle formed between the top of Nubia, where the unnamed author of the satanic bible ended up after his father killed a few ('Braganca'/the devil told me this part and the satanic sisterhood has just let me remember that, since I guessed it), probably with his help at most after the first one (the father had an argument in Egypt with another male ('Braganca'/the devil said this part as well, the satanic sisterhood confirmed with giving me my memory after I guessed it), then killed him as a consequence), and modern Israel. The parents of the unnamed author of the satanic bible and the unnamed author of the satanic bible had to flee from Egypt because someone saw the unnamed author's father killing another person and the Egyptians were very severe when it came to crimes like murder plus had a justice system that relied on truth, balance and order (according to Co-pilot, who just added 'order' to the list). The father then had the idea of usurping a family that was passing by, so parents and son, and already then the unnamed author of the satanic bible may have helped him kill. They then went to the closest Country that made sense, which was the Country of birth of the mother of the family they usurped, Nubia. They didn't know where the family they usurped lived, so that they just crossed the border and turned on the first street to the left, chose a house and killed again to have where to live. That was top of Nubia from 600 BCE (modern Southern Egypt and northern Sudan, according to Co-pilot) and that makes an angle of 33 degrees with the land that would become Israel. Notwithstanding, Israel is also on the parallel 33 north or in the latitude of 33 degrees, actually on 33 degrees north [7]. 'Braganca'/the devil told us (now that we guessed, the satanic, who control my memories through a cluster I call 'Leah', since I know one of the satanic transgenders that figured as white Brazilian woman working as researcher of Psychiatry for the MKULTRA in Rio de Janeiro by 1974, Praia Vermelha, UFRJ, and her official name was Leah (I still found 'her' listed online as part of this institute by 2010), let me have access to that particular memory) that the unnamed author had used navigation instruments to determine the location where he was back then but, according to Co-pilot, while angles had been formalized at least by the Babylonians around 1,500 BCE, sextants were seen nowhere (invented in the 1800s, so that it couldn't be those things the satanic brotherhood does these days, of usurping inventions and only revealing those decades later because that is more than one millennium) and the concept of Equator had also not appeared yet (only after 1500!). The reason to choose modern Israel as a place of reference and 33 degrees as angle formed between where he was and modern Israel as inspiration for the maximum degree number of the satanic bible was that his father told him about what had happened to Moses, who was originally a Phoenician born in Egypt, from parents who were both slaves there (Attachment no. 1). Israel became known, among the black Africans, as the land of freedom, and the black Africans marched from where they were when Moses was born, during what should be a year between 1592 and 1271 BCE [16], to it, stopping a while to accumulate/group, having left the place of their slavery by the fews, where the bible reports Moses passed during his trip from Midian to the 'Red Sea'. During that time, of the accumulation, the negro men who went there to attack Moses in Midian kept on deceiving Moses in terms of where to go, so that he would be progressing and regressing in his trajectory (almost all of this is told to me by 'Braganca'/the devil when I was little, since I first guessed and

the satanic then let me access the respective memory tokens). They arrived in Arabia and saw the sea straight away, so that they decided to stay right there, thinking that would give them more options, which is then the reason as to why Israel is located there. That must somehow establish that Israel is an illegal Country and it certainly explains the fact that it has always been a point of reference for the satanic brotherhood/sisterhood. Since the negros got access to the head bug and learned how to change skin colour through it, they must have stopped hiding in the vicinities of beaches, underground and other places in Israel and we found out they already knew how to change colour through bug in 1885 (Attachment no. 2), so that that is maximum time we expect all things in the area that later on would become the Country of Israel, part of Arabia, to have started going wrong. Usurpation is a silent process and we calculate they would throw the bodies in the sea, perhaps attached to rocks. They likely began by targeting properties near the sea shortly after arriving there. That is then seen as a place of absolute freedom because they then lost all scruples.

Latitude 33 degrees north is then how we refer to Israel and that is probably why the satanic came up with 'North Face' as a brand [6], like they usually put clues of what they think and what they are doing somewhere: their face in Israel was probably remarkably happy, since they were finally free, but we can't really tell if that is the case, just theorizing that 'north face' means 'happy face'. Notice here that this brand starts in San Francisco, California, in 1966, and they say San Francisco is the gay capital of the world (Co-pilot), especially for gay men, plus 666 is their bug [8], the number of the beast [9]. We then theorize that perhaps only males ever left the area where Moses was born, like the women decided for staying instead, since perhaps they now had a better life, without the Pharaoh over them and figuring as best friends of the Pharaoh's daughter and mother.

They came up with 85 degrees as a coffee shop chain name [38] and Leinha told us about that: she was going to try to say something good to Rio de Janeiro/cariocas (see Attachment no. 3) through what they were doing, perhaps if it were in Farenheits, it would work, she said back then, in other words. We now know that is the new latitude of reference: Antarctica [39]. We remember Leinha saying she was going to offer a spot there to 'Maria Darcy', who is a professor of Mathematics at the UFRJ, our ex-IMPA fellow, from when we studied Real Analysis there together, when I, the female of the Twins of God, was thinking of doing a PhD there, for thinking it was the closest thing to a holy Mathematics place in the world, like, back then, it was really special (they changed everything and everyone). They might then have changed their minds and concluded that safest place on earth would be there instead of Easter Island (they built an underground facility for them under the beach there, where some statues are together, right in front of the sea: 'Osama' is there as a statue that has a rock over its head), like least likely to be affected by whatever they will be doing (that is going to be killing the entire human kind apart from 144,000 Egyptian negros). We then notice some funny names, such as Victor Cliff and Victor was the name of the supervisor of 'Maria Darcy' when she did her PhD at the UFRJ. I always tell people to speak to 'Maria Darcy', trusting she is my good friend from Mathematics and won't let me down, so that I calculate Leinha thought that (Leinha, who is my Al Qaeda sister, also offered me a hole in Easter Island, said I could be there with 'Dylan', since she could make him accept me or something. 'Dylan' worked at the Macquarie University, IT, when I there studied, so back in 2020), for that one, perhaps for observing how things went and concluding that I really really want my twin and nobody else, it would be 'Maria Darcy' who would give me a hand and save a spot for us there, in what now seems to be 'her share' of Antarctica (Attachment no. 6). The other place that is also in this parallel (85) is the other pole, so Arctic, but, in that case, the 85th parallel is water, not landmass, so that Leinha must have meant Antarctica ([40] and Co-pilot). Notice that **the word 'Amen'**, which is one more thing the satanic put in the circuit of the Christians, represents an invocation of the deity/demon Amen/Amen-Ra from Egypt (which would be connected to the story involving cliffs because, in ancient Egypt, people were forced to jump from cliffs to death on the hard rocks following command of Amen received by the God's Wife), so that we are adoring it as we say Amen (Attachment no. 3). It is also outrageous blasphemy if we think of the Latin language as its place of origin [41].

One of the most important masoretes was Aaron ben Moses ben Asher because he 'played a significant role in the preservation and production of the masoretic text' (Co-pilot). He was on earth during part of the 10th century [17]. The masoretes were an invention of the satanic brotherhood and that is easy to see even from the date they start working (600 BCE [18], exactly when the second and third members ever of the satanic brotherhood reach Israel [1]). 'Braganca'/the devil says that they didn't like the fact that the Jewish language had no vowels and that is why they decided to change things. It is hard to locate information about who the masorete who translated the paleo-Hebrew term, from Cannanite and Aramaic inscriptions,

אֱלֹהִים (יהוה in block script) or the tetragrammaton [19] into YHWH was. Yet, this is the first point we need to get convinced of: how those symbols become YHWH. The Phoenician alphabet is apparently the one used by the Canaanites [20]:

From the first set of symbols we were given for the tetragrammaton, we get HWHY if we go from left to right, which is the way we, Americans, read whatever is written, but, if we read like the Canaanites, therefore from right to left [21], we indeed get YHWH.

The second point is listening to the pronunciation of these letters that are now written in the Latin or Roman alphabet (Co-pilot). We went to [22], which is supposed to translate text to speech, entered the second set of symbols, therefore now for the Aramaic language, and the sound we got was more like a YAL than a Yahweh. [29] gave us completely different sounds, which were like a breath or something. Yet, if we translated their symbols into our alphabet, it is obvious to me that, by reading the words in our own alphabet, we would be saying the original sounds, for otherwise such a translation is invalid. Consider the Morse Code [23]: we get “dot-dot-dot dash-dash-dash dot-dot-dot” and we translate that into SOS, which is a code for distress. We get ‘dash-dot-dot-dot dash-dash-dash dash-dash dash-dot-dot-dot’ and we translate that into ‘bomb’. We get sounds and we translate those into Roman or Latin letters, whose sounds are those we emit for all other words in the English language. Why would sounds from Aramaic be translated into Roman or Latin letters that we need help to pronounce? It is all absurd! If it is absurd, it is a result of the criminal actions of the satanic brotherhood/sisterhood. It was never that the name of that ‘demon/deity’ could not be pronounced: it was just that the pronunciation is that of four letters, namely YHWH. The satanic then create mystery, as they always do, in all they can, for their intentions are those of the devil and hell: confusing human kind, delaying our progress, specially spiritual, and, if possible, guaranteeing that not only we do not progress at all, but that we actually regress by much and that our soul ends up in hell, therefore destroyed after due punishment. They then invent ‘tetragrammaton’ as a name for the name of the deity/demon, so that the name is now a puzzle. That was after Christ was born, according to Co-pilot, like the term ‘tetragrammaton’ is seen nowhere in scholarly and theological contexts before that date.

Basically, the satanic did not have what to do and, if you invent something, you don’t usually have to rely on past studies, so that you can start as if there is nothing preceding what you write or say, which is something nice for someone who knows nothing: you just invent whatever you like. I guess that is exactly what they did.

Notice that translating Greek into English is also translating symbols into letters and we then have Φιλία (philia), which means "friendship" or "affection" (Co-pilot). We read the word, in English, as exactly philia, at most changing emphasis to copy the accent of the native (Co-pilot).

Notice that Yahweh, as the African negro men would like us to read the word YHWH, means ‘he who causes to be’ [24] and that perfectly matches the philosophy of the satanic brotherhood/sisterhood: the black African negro man makes all happen and is the only one who can change things or make them happen (the pyramid thing). Since they were already in Arabia, exactly where Israel is nowadays more than 3,000 years ago, we have to accept that they also gave name to the place. Things being such, Israel actually means ‘he will become Ra then El’ (attachment no. 4).

Notice that they call themselves ‘I am who I am’ and that perfectly matches ‘he who causes to be’, like they seem to have fixation on a few things, the verb ‘to be’ may as well be one of them. ‘Tracy Chapman’ [30], another artist they usurped, who then appears like a very typical African negro female in the media since then, says ‘I-I had a feeling I could be someone, be someone, be someone’ in one of her most famous hits, Fast Car [25]. Whites are Christians and Christians never have doubts as to being someone: they know they have a soul and being with Christ makes them be someone special, unique, and that truly makes a difference on earth, regardless of what they do, like even if they simply give their love and attention to another Christian. The reason for the negro to need to have and display things in order to feel as if they are someone is that they are with hell, with Mr. satan, not Our Savior, Lord Jesus Christ.

We believe the original Tracy Chapman was white and truly native American, as we see in [30] is the truth for her ID, so that this would be a case that is similar to that of Louis Armstrong [31]. The song, ‘What a

Wonderful World' [31], we believe belonged to the original Louis Armstrong and, if we are right in our guesses/data collected, that was a white man.

See here four of the body images presented in the media as corresponding to the ID of Tracy Chapman:

[26]

[27]

[28]

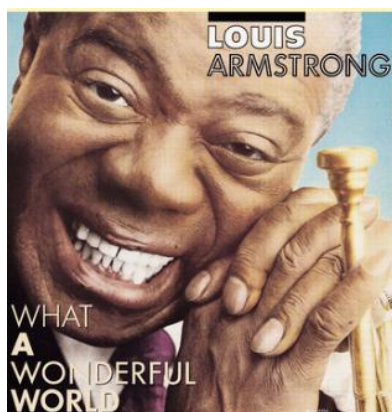

[32], 1982

[26] is the body image of the public ID Tracy Chapman from her first album, whose title was Tracy Chapman, an album from 1988 (Co-pilot and [26]). The four pictures above show four very different people: observe skin tone, nose, lips, amount of skull/flesh between the end of the eye and the hair line, so the horizontal distance between those, and so on. [27], [28] and [32] seem to be pictures of black African males. It seems to us that the black African males on [27] and [28] injected something on their forefront and cheeks that made their face look like a face of someone who is wearing some type of mask; half-face one. We believe that is one more strategy for them to look less masculine but also for them to lose the aspect of V-shaped (we refer to their faces). If we imagine the cheeks and forefront as having the same tone of colour as the rest of the face and being deflated plus the lips being returned to normal black African males' lips, we should be able to see a male popping up. We still believe both men, so [27] and [28], are originally 'V' faced, so have faces in the shape of Vs (and we identified this shape as belonging exclusively to black African males, later on refining that to Egyptian), which we are now theorizing is one of the typical facial shapes of Egypt, so that the final clusters may as well be of the same nature as the first group of black African men involved in the most primitive traces of origin of the satanic brotherhood/sisterhood, which is Egyptian, like not only they found a way out of Egypt back then, by Moses' time, but now they find a way out of earth through the same criminal processes (Leinha told us that the satanic brotherhood organized themselves in such a way that they would invest in sacrifices for each one of their demons/deities at different times, so that, by now, they would be over with Baal (Leinha, the Brazilian 'Osama', black 'Nelson'/satan, 'Braganca'/the devil and a few others would already have reached the status of Baals, each one with their own stone statue of themselves in Easter Island, underground) and would be making offers to Amun-Ra/Amen-Ra instead, so to the most revered Egyptian deity/demon, which basically means that they intend to sacrifice the entire human kind (Amun-Ra is about human sacrifices but, as always, the satanic brotherhood/sisterhood hid all clues about that everywhere) in a big 'send' so that the Egyptian part of the group, then the black African men born in Egypt, can have maximum support of Amun-Ra in their takeover plan (involving the Our God's Elohim People). They chose Easter Island and underground by the sea border there because they believe it is less likely that they will attack there, like 'she' didn't know how it would all unfold back then, when we spoke about that, which was more than 30 years ago. We, Twins of God, were

really sent by Our God, the God of Abraham, Isaac and Jacob, to restore human kind and this world under the command of Our Lord and Saviour Jesus Christ, but we need to be saved first and it is through us and converting to Our God and Jesus that human kind can be entirely saved, including them. We did write blog posts (650 in the blog Crime, 199 in the blog Religion, 53 in the blog Music and 331 in the blog Curiosities from Blogger, Marcia Pinheiro), but Hezbollah (who is 'making' the satanic story from 2001/2 for us) deleted almost all of them: that was part of our agreement with satan/black 'Nelson', that we would, at this stage, show the entire human kind through blog posts what they were about and what they are doing for him to see if people would 'finally' accept all and them on a voluntary basis. We also had another agreement, this time with 'Trevor Skinner', to show everything we could via scientific papers, this one being respected so far, yet we doubt people are being able to access and read them (Hezbollah, whose top leader is 'Obama', seems to have usurped the journal somehow, following the satanic story made with 'Trevor' and others in 2001/2, so that maybe our scientific publications in that direction are going to be over now: they usually change looks of everything and everyone they take over and the journal has changed its interface for submission after decades keeping it in the same way. That happened in the last couple of days because I wrote to 'the Indians' to ask them to help with Our God's Brainwashing, engineers, via Facebook: in the satanic story, if I did that, they would stop the journal from publishing our articles). The agreement with 'Trevor', who was sent thanks to 'Lea Maria Ricci', is of a slightly different nature than that with 'Nelson', though.

Coming back to the Egyptian masculine faces of 'Tracy Chapman', because we guessed, the satanic let us have access to the relevant parts of our memory and we then see that Leinha told us exactly about this, so about the investment the satanic sisterhood would make in softening their facial traces, which the sisterhood believed were extremely masculine. [26] and [32] seem to have gone through these processes. We could then think that this ID is that of a satanic transgender experience. However, the name 'Tracy' is originally a masculine name in the USA [34] and 'Chapman' indicates a profession, which is 'merchant, trader or peddler' (Co-pilot) but there aren't many civilizations who had this manner, of stating the profession of their parents in the surname. The most likely origin of this name, given that it appears in America, is English [35] and therefore we believe the original person lost their life before 'Tracy' was raised a Baptist (we don't believe people who descend from the English would be Baptists and that is usual choice among the blacks only) and they were a white male whose picture we cannot find anywhere online. That probably means he lost his precious, unique human body and incarnation experience before the age of 5 years old was reached.

See here four of the body images presented in the media as corresponding to the ID of Louis Armstrong:

[36]

[37]

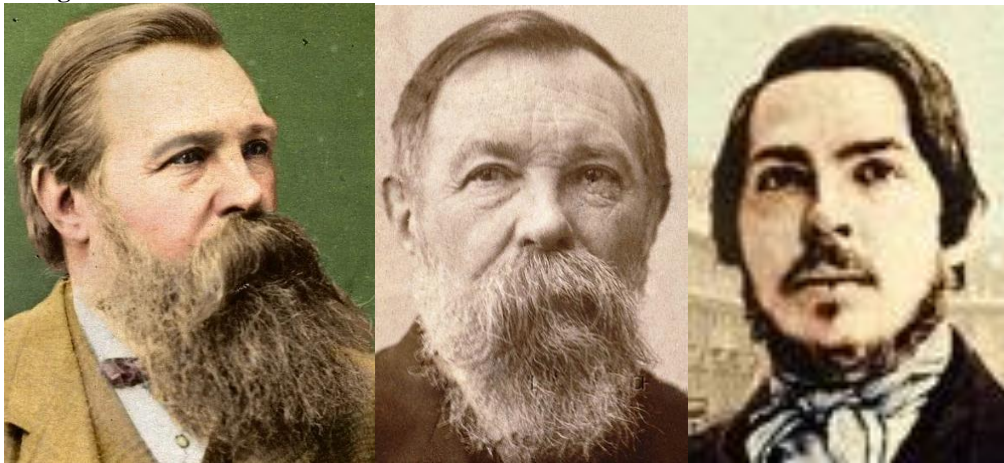

[37]

[37]

Please pay special attention to chins, skin colour tone and shape of the face, so that also you can acknowledge that these are four very different men. We believe Louis Armstrong got his life usurped before the first body image for his ID appeared in the media, so that, if you investigate the age of the first body image presented to the media, you will know he lost his so precious, unique body and incarnation before such an age was reached. We believe his biography on Wikipedia [31] is not the actual biography for the ID: the original Louis did not have a black infancy, so struggling financially and all else, and he was originally white plus composed at least 'What a Wonderful World' before his existence got usurped by the satanic brotherhood. Leinha said that this one we wouldn't take from them and I therefore imagine she referred to the amount of effort the satanic brotherhood would put into the task of not letting us prove that the original man was white.

Friedrich Engels

[42]

[51]

[52]

The three pictures above correspond to the body images of three very different men: please observe the hairline and eyebrows to also acknowledge this. We then know Friedrich's existence was usurped by the satanic brotherhood (one of them, either 'Braganca'/the devil or 'Nelson', told me that too, since I again guessed and the satanic gave me some small token that connects to these facts).

Friedrich Engels was born in Germany and was from a wealthy family but his family attended church (Calvinist Reformed Evangelical) [53] and this church is a Christian church (Co-pilot), so that the first two pictures would be highly unlikely to ever represent his body image: Christians tend to look clean and tidy but beard plus moustache give the appearance of unclean to men, specially horrible beards like that. 'Nelson' talked to me about the group of men to which a certain flat earth Australian radio show presenter belongs: the bearded men. They have to always have a beard; can never shave themselves in full. They defend that men should live in the country areas with their respective wives because that is the only way they can be faithful to them. They also defend coming back to nature, so primitivism: things like getting milk and eggs from animals directly. We don't believe the two men above fit the profile of this group even because they lived in the city. Notwithstanding, we have seen these horrendous beards and moustaches everywhere before on usurpers of major American icons' existences and we now believe one of the reasons is concealing their original nature, so that this strategy was perhaps designed during the time the satanic brotherhood did not have the 666 [8], since they need it to shape lips (lips of certain types of black African men are quite unique and therefore make us identify them immediately). Another point is the necks, since certain types of black men have necks that are almost as wide or as wide as their heads and that also uniquely identifies them: the beard of all three men in the three pictures above serves the purpose of concealing their necks. The level of wealth of Friedrich Engels should also mean no beards, especially of this type.

For the man on the third picture, it seems that the clothes are those of someone of low class: the neck seems to be covered by something like a handkerchief tied to the front.

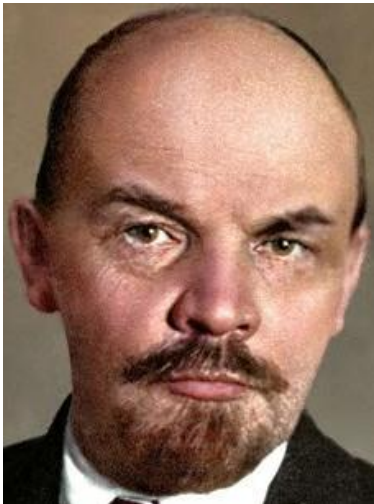

We theorize Friedrich's life was usurped in 1837, so when he was 17 years old, since his family is Christian and therefore stable in all decisions and support to their kids: they would never put pressure on him for him to leave school [53], but, as the marginal usurps his existence and that of his small family members, the marginal needs to change his narrative of life/biography for the purposes of concealing his atrocity and that is when weird things, atypical, are usually noticed.

'Braganca'/the devil, however, implies that (I now remember, exotically) Friedrich got usurped only after he met 'their' Karl Marx, which is then at the age of 28 years old instead, so 11 years later. We then believe the devil didn't know Friedrich's existence had already been usurped and their Karl met their usurper instead of him

back then ('Braganca'/the devil thought they were usurping the students and staff of a school near the Enmore House (Al Qaeda house), whose brochure he found underneath the door of the house in 1972/73, for the first time and he found out it was actually the second time later on, so that it is possible that, on that particular occasion, he didn't do that type of research or he tells me about that particular usurpation, without worrying about previous ones).

This was to prove that communism was only made possible because those involved in its creation had no studies whatsoever on the topic and were members of the satanic brotherhood and therefore were just willing to inflict pain, injury and loss at waste. It was also to prove that Marxism has nothing in common with Communism: one is a symbol of Christianity, of Our God's concerns with human kind (Marxism: maximum care about equality, fairness, attention to the individual in a personalized manner, therefore more freedom to be (remember 'Tracy's' lyrics here, 'be someone'), and the other is a symbol of satanism (equivalent to slavery in several regards: the person and the objects belong to an abstract entity, which, for being abstract, allows for anyone to take it over and therefore administer the life of the individuals in the society that accepts/adopts such a philosophy. It therefore lets the devil in and being simply forced to hell be a very strong option. There is obviously absolutely no freedom to be, so 'no head space').

Vladimir Lenin

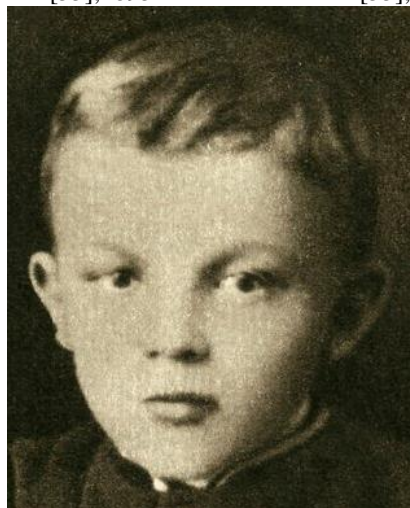

[54]

[55], 1895

[55], 1891

[56]

The four pictures above show four very different men: noses, ears and chins should make you agree with us. The revolution happens in 1917 and Vladimir's ID bearer was not himself already by at most 1891, so that there is absolutely no chance the person who started such an atrocity was him, so Vladimir Lenin. We observe that the youngest of all these body images is that portrayed in [56], yet the ears and the V-face (a bit of a U instead of a V this time) tell us that the boy in this picture has high chance of being from Africa as well. It was a bit too early for the satanic brotherhood to be able to change lips via 666 as well as skin colour: the boy in the picture is about 7, at most 9, years old ([57], [58]), so that the picture would have been taken in 1877, at most 1879. We

know the bug already existed in 1885 and, at that stage, they could already swap skin colour. Yet the black African men gain access to the first 666 by the end of slavery in Germany and we had previously calculated that to have been something like 1880s. We then were in momentary trouble: twin in me and Jesus in us led to the refinement of the information, this time with it coming from a very reliable source, the United Nations: slavery in Germany was abolished in 1959 [59] instead. In this way, we were late by at least extraordinary 20 years in our calculations. This boy's face is that of Egypt, we think, despite it being a U instead of a V, therefore he was originally a black male, probably from Egypt. That means that Our Lenin, son of two beautiful Russian Christians, was less than 7 years old when he was cowardly murdered by the satanic brotherhood (since the usurpers were males figuring as males, it is coming from the brotherhood).

That all means that Our Lenin never, absolutely never, got involved with such a demoniac thing as socialism, which again represents pain, injury and suffering: Co-pilot says, among others, that socialism implies collective ownership – resources and means of production are owned collectively or by the state, rather than by private individuals. That means we would be waiting for the government to start things as a rule in terms of research, just to mention one thing, and, in Brazil, for instance, Co-pilot tells us that ‘federal research agencies have faced budget cuts, and domestic research expenditure contracted by 16% between 2015 and 2017’. That basically means that health research would be even more stuck than it is. We have not been able to find permanent healing for AIDS in about 105 years of research investment in that area (Co-pilot). Co-pilot is able to list at least 3 major private organizations that have been involved with research into this topic and, since 1985, it says, it is amfAR, a private organization, that has been on the lead of such research, having been able to invest about 900 million dollars so far. That basically means that not even with both governmental and private investment that is reasonable in such area we are able to reach our target not even in 105 years, imagine if it were just the government investing in that? Research is essential and it is the only thing that can make humanity progress at the pace that it needs to progress for individuals to feel rewarded for the investment they make in life in society, like why would the individual not live on their own somewhere isolated and nationless like Bir Tawil (Co-pilot)? It is obviously so that they can have help with things they would never be able to solve without a nation, such as major health issues.

Notice that we, Twins of God, are individuals, who, despite all opposite-direction efforts of all governments of the world, have managed, with the help of Our Lord and Our God, to bring these pieces of news to you. If human kind depended exclusively on the government, not on our (very scarce) personal resources, gotten through miraculous employment experiences and a lot of individual and voluntary sublimation and sacrifice, you would absolutely never get not even to have a clue on what happened to you by the time of your death by whatever means they plan to get that result. All our information and wealth of sources and knowledge is coming exclusively from private investment. If you value something we offer you, then please remember to never choose socialism or communism or anything even slightly different from capitalism and democracy in terms of systems that have already been planned/created. I would probably have been arrested or put into mental health medication in anything different from this and that would make reaching you or even being able to make sense of things ourselves something impossible.

Mary's apparitions in Fatima, Portugal

“Marian apparitions are supernatural events in which the Virgin Mary (the mother of Jesus) is alleged to have appeared to one or more people. They are predominantly associated with Roman Catholic tradition, although apparitions have also been recognized by the Coptic Orthodox Church.” [60]

“Individuals who have claimed to have received an apparition are often referred to as “visionaries.” They have ranged in age from young children to adults. Of the Marian apparitions that have been deemed worthy of belief by the Vatican, the apparition at Knock, Ireland, on August 21, 1879, had the greatest number of witnesses: at least 15 people claimed to have seen Mary alongside other holy figures on that day.” [60]

‘Marian’ already looks wrong: the satanic brotherhood/sisterhood members committed yet another mistake in continuity (since it is obviously the case that, if you don't go for Our God and Jesus Christ, you will miss stuff and, in special, if you explicitly go with the devil/satan, you are obviously going to miss a hell lot of stuff: notice once more that it is either Our God or the devil and if you say you are something else, say atheist, then you are surely with the devil, even though you may think, to yourself, that the degree of pertinence to hell is inferior to that of those who explicitly say they are with the devil/satan. Our God doesn't go with your thinking there, so that, for Him, there is no such a thing as degree of pertinence: you are choosing something that is not heavens or Him or Jesus and, since there is only heavens or hell, you are definitely choosing hell. If you are going to end up there or not is with Jesus after your death, yet, if you are not with us, then you are the most vulnerable to any satanic trap or manipulation and you are surely not going to have highest level of information/wisdom/insight/inspiration) somewhere and called Mary Marian, like in one of their forged documents. They then invented this manner of ‘fixing’ things (satanic fixing). It should be Mary's apparitions in

the same way it would be John's apparitions not Johnian apparitions or something else. Marian is there to confuse, so that that is satanic stuff. We say Marist College and that is also because it has to do with Mary - 'devotion to Mary', according to Co-pilot - so that the name may imply something else, which is not the fact that she appeared and therefore it is not good.

'Knock' is like 'knocking on wood': that is the way the satanic brotherhood/sisterhood informs black Africans that they will be killed next (they apparently knock 3 times on their door), so that we already know the chances that that is an actual apparition are also almost null.

If we were the satanic brotherhood/sisterhood, we would worry about spreading rhetoric that implies doing nothing and being a watcher or passive person, since that is going to give them more chances of attacking us in a successful manner.

Let's then examine what this supposedly heavenly visit was about [61]:

"May 13

"Please don't be afraid of me. I'm not going to harm you."

"I come from heaven."

"I want you to return here on the 13th of each month for the next six months, and at the very same hour. Later I shall tell you who I am and what it is that I most desire. And I shall return here yet a seventh time."

"Will you offer yourselves to God and bear all the sufferings he sends you? In atonement for all the sins that offend him? And for the conversion of sinners? [The children said, "We will."] Then you will have a great deal to suffer, but the grace of God will be with you and will strengthen you."

"Say the Rosary every day, to bring peace to the world and an end to the war."

Notice: A heavenly visit comes with the authority of heavens, therefore of the Elohim, thus it is the most beautiful and full of light presence one can imagine and there is no chance to not even deviate eyes from it, but we should all feel overwhelmed in a positive way if we belong to Our God and why would a heavenly being appear to people who are not with Our God? Don't we have enough Christians on earth or something? Who would the wisest select as the vehicle of a message that is supposed to be delivered to the entire human kind: a little kid or an adult? A male or a female from a certain location? A hard worker or a researcher? A Christian, therefore most compliant being, or a wild one? Could a child be more Christian than an adult?

Asking ourselves simple questions like that would have led us to see how fake this all is, how satanic. If we have pure hearts, clean souls, no sin, if we have already been washed by Christ and forgiven by Our God, if we dedicate ourselves to the right things, therefore have thinking aligned to that of heavens, we see all that easily. The obvious answers are: you'd never choose a kid if you are going to speak only to three people on earth, you'd prefer the researcher or a teacher, preferably a primary teacher, if a teacher, you'd probably choose someone who knows tachygraphy, since you don't want to have to stop speaking, perhaps someone with a recorder, a camera of some type, etc. Oh, dear, no chance, already on the first lines, of this being someone heavenly or something heavenly.

Notice that if a person needs to say 'please', they certainly don't have authority from heavens, and also if they say, 'don't be afraid. I am not going to harm you', when nobody said a thing, they must think they are really really scary and threatening, therefore straight away hell's beings, image that is perfectly compatible with the satanic brotherhood/sisterhood, probably sisterhood. Notice that they say these three children had no notebooks, no writing material whatsoever, and they even provide images to explain that to us, yet they want us to believe they are quoting Mary, so telling us exactly what she said, when she said it only once to all those present. That is still five paragraphs and at least one of them is really chunky. What is more likely, for Our God's sake, please: that three little children came back home with exactly the same story and that actually happened, all able to perfectly quote Mary, exactly the same words, or that the satanic produced a vision in them using their head bugs and then inserted that perfect text in their mouths, therefore moving them completely during all that time?

Who needs to say they came from heavens if they are actually from there, we wonder? 13th of each month, 6 months, 7 apparitions: these are all satanic numbers. Then, we wonder, as if it didn't suffice that Mary will follow a schedule when interacting with these kids and she doesn't worry about whether the kids are going to be alive or dead by the time of the next apparition, she is giving the message by the bits (like why?) and there is always nobody there apart from these kids until the last apparition, when the 'miracle of the sun' happens ('sun appearing to "dance" or emit multicolored light', says Co-pilot). Sun is an object of adoration for a certain type of satanist, not sure which. If the mother of Jesus turns up to your kid and says she will show up again next month at a certain time, date and place, wouldn't you go there, to the least? It is missing at least the parents of these three kids, isn't it, to make of all a more plausible 'movie'. We suspect that each apparition meant murdering the kids and replacing them while replacing also their small families (since they always do the whole pack), which is the only thing that can explain no parent showing up on the next one. We will try to prove that there was replacement of the 'kids' (they talked about that even after 'becoming' adults).

We observe that I was in Rio by the 1980s and they spoke about that on TV, since Brazil is a Catholic, therefore Christian, Country, and therefore most of the people bother: they then, just like Co-pilot, are unable to quote Mary but provide their own summary, which makes all details I explained before become hidden, what then adds credibility to the satanic fairy tale.

‘She’ asks: ‘Will you offer yourselves to god and bear all the sufferings he sends you?’ Oh, dear, that Our God sends sufferings: that this is not something exclusively from hell since at most Jesus’ time... Here the satanic sisterhood/brotherhood is thinking of Baal, their god, so that they probably incinerated the kids alive each time. ‘In atonement for all the sins that offend him?’ Here they refer to Baal and probably that he would get offended because all the kids, especially from Portugal, another Christian Country, should have a pure heart and a clean soul, but he wants them to be evil and therefore they sin against the devil, since Baal is one of his creatures, so a creature from hell. ‘And for the conversion of sinners?’ The satanic here are talking about changing their parents, for instance, into sinners in the Christian sense because it is all inverted: that is all that there is, it is either heavens or hell, either Our God or the devil and so on. They expect, through imposing suffering that is extraordinary to their kids, that the parents will ‘finally’ go with satan and accept attacking the world/human kind with him. The satanic then make parents learn that their children said ‘we will’, so that their kids have accepted dying for Baal, which means they will be next. These parents were probably all usurpers already, so that the satanic sisterhood/brotherhood still bothered warning them about what was going to happen to ‘their’ kids.

Saying a rosary everyday doesn’t bring peace to the world: at most to those saying it. Even less does it bring wars to an end: Our God never liked non-spontaneous prayers and that may at most have an effect on Jesus, who listens, but that is if the person is one of us, so pure heart, clean soul, spirit aligned with heavens, no sin and so on. Just saying the rosary doesn’t help as well, like the person has to wish for the good to happen and has to tell Jesus they believe that is a sacrifice they are making for Jesus to care about their cause. Besides, there are wars that have been created to finish with non-Our God’s peoples, the so-called holy wars, and therefore there has to be a reason for the person who is praying to wish for the end of the war, a personal reason, since the prayers will be attended to only because the person is liked by heavens.

The words of the rosary are not all acceptable, some are blasphemous, such as ‘Amen’, but Our God has tolerated those, thanks to Jesus, just because those praying it were trying to do their best to be with Our God, heavens, Jesus and so on. We are now here and we are fixing all of it, so that, after humanity, as a whole, learns the right word, those kinds of prayers won’t be listened to anymore. They probably say that because they invented the ‘Amen’ thing had to be done after each individual prayer and that means invoking Amen-Ra, which is the deity/demon of the sacrificial suicide/offer of life, so that, for them, it probably works as satanization. Notice that the first apparition happened on a 13th as well.

You must remember that the cross is not to be praised ever and the martyrdom of Christ is not to ever be associated with redemption of our own sins [4]. For some reason, I think it is possible that (just like in Africa they knock to warn that the existence of the person is about to be usurped, and, in Australia, they file the door), in Rio (sometimes), they give a rose to the person that is marked to be killed next, just because this happened in Portugal and, in Portuguese, rosary is ‘rosa’ (rose)+‘rio’ (Rio de Janeiro), like that would be the Senhora do Rosario.

After I guessed, the satanic gave me the tokens of memory that have to do with these incidents: Leinha would have told me they needed to offer 3 kids each month at that stage and doing things in that way looked more practical.

“June 13

“I want you to come here on the 13th of next month. I want you to continue saying the Rosary every day. And after each one of the mysteries, my children, I want you to pray in this way: ‘O my Jesus, forgive us our sins, save us from the fire of hell. Take all souls to heaven, especially those who are most in need.’ I want you to learn to read and write, and later I will tell you what else I want of you.”

“I shall take Jacinta and Francisco [to heaven] soon, but you [Lucia] will remain a little longer, since Jesus wishes you to make me known and loved on earth. He wishes also for you to establish devotion in the world to my Immaculate Heart. ... My child ... you must not be sad. I will be with you always, and my Immaculate Heart will be your comfort and the way which will lead you to God.”

Here we have repetition, like this line has already been said (on 13th of each month). Since the rest of the message is not repeated, this further proves that it has to be the satanic brotherhood/sisterhood doing all that (inconsistency/incoherence). They then request that the children they will soon kill pray for Jesus to take the souls of the satanic to heaven (since theirs will be the ones in most need). Our God and Jesus don’t go with begging to be forgiven: the person really needs to pay somehow, even if it is through fasting and spontaneous prayer, and the praise makes substantial difference. Even though the kids are told to be 9, 8 and 6 years old [62], the message tells them to learn how to read and write, as if all of them don’t know that yet. Fatima was apparently a ‘small rural village’ in Portugal back in 1917 (Co-pilot), when the apparitions happened [62]. It is

possible that all of them didn't know how to write and read and a person can calculate that based on the fact that it is a small rural village back then ('Braganca'/the devil asked me about what sort of thing someone could be saying to mean they care about kids in a rural village and we concluded that read and write would be one option).

The satanic like associating people with food and drink, since they do practice cannibalism and hematophagy themselves after a certain degree is reached inside of the brotherhood/sisterhood: that is why they talk about the heart of Mary, so that they try to make us think of her heart, concentrate therefore on the organ (and they did consume cooked human heart before me on one occasion, as reported before), which is how people usually get attracted to eating things. That is called an 'eye candy' by Chuck Dinerstein on [63]. In the same way, the satanic invented that we have to eat the flesh of Our Saviour and Guide, Lord Jesus Christ, and drink his blood: Jesus absolutely never said that, please find a way of getting over it. How can thinking of the heart of someone lead our way to Our God? First of all, we are marching toward heavens, not towards Our God, since He is not a place. Everyone's heart should be similar in human kind, so that is where we should never focus if wanting to mean we are going for the help of person X. The Catholic Church, having its members usurped right in the beginning of all, that being the actual reason as to why only men decided on what would be told to be the word of Our God, and only those 'from their order', then started making 'statues' (their god had been clear about those and he said, no way!) displaying 'Virgin Mary' (who was not virgin anymore for long after Jesus was born, therefore didn't die as a virgin (nobody seems to actually know how she looked like as well, so how come one can make a statue at her image?) and the title is therefore insanity) holding what is supposed to be her heart 'outside of her own body' (?), as if on offer to us, and her heart then looked quite 'yummy', like something similar to candy. See here a double offer (both Christ and Mary offering their hearts to your palate):

[64]

Notice that Our God, Jesus and heavens worry about individuality to maximum degree, personalization and tailoring of absolutely everything, so that they would never support this: images that do not correspond to the actual and current body image of the being to be there as a way to remember or communicate with them. They don't like images because they are static in time, first of all (a person who spends time contemplating the past image of someone is not allowing their heads to have space for the contemplation of the current moment of the individual, is not progressing with their thinking/studies/understanding to the next stage of their lives that they now live, therefore it is a person who is not connecting for real to the life of the other, which is not an acceptable thing in Christianity: we must always connect to here and now in first place, for that is where we ourselves should be). Second, they have no life and that may then be associated with death, post-mortem status of the individual, which is then equivalent to asking for their death or learning how to contemplate that state of being (of no heart beating, no change of facial expression, so stillness), which is not to be contemplated, since, if one is with the Twins of God, Jesus Christ, Our Lord, and Our God, they know there is spirit and soul and therefore it is all about life all the time, not death. Only those who are evil deserve this sort of contemplation, so the imagistic wish in our minds for that state of the being, where there is no movement or change or spirit that is in them.

Also notice that the satanic are realistically offering no comfort at all and are still adding torment to those listening: think of a piece of flesh, which normal people would associate with atrocity against the being, so against the mother of Jesus Christ, Our Lord.

July 13

"I want you to come back here on the 13th of next month. Continue to say the Rosary every day in honor of Our Lady of the Rosary, to obtain the peace of the world and the end of the war, because only she can obtain it."

"You must come here every month, and in October I will tell you who I am and what I want. I will then perform a miracle so that all may believe."

"Make sacrifices for sinners, and say often, especially while making a sacrifice: 'O Jesus, this is for love of thee, for the conversion of sinners, and in reparation for offenses committed against the Immaculate Heart of Mary.'"

[After showing the children a vision of hell]: "You have seen hell, where the souls of poor sinners go. It is to save them that God wants to establish in the world devotion to my Immaculate Heart. If you do what I tell you, many souls will be saved, and there will be peace."

The satanic invented different IDs even for Mary, mother of Our Savior, Our Lord Jesus Christ, like why not, isn't it? They basically made us think that is natural, passed rhetoric, like even Jesus' mother usurped all the time: she is Our Lady of the Rosary here, Our Lady of Fatima there, Our Lady of Knock here, Our Lady of Sorrows there and so on (Co-pilot). For Our God's mercy, please notice that if it is always Mary, and Mary is the actual name of Jesus' mother (we would say we still need a Marcia Hope to tackle that one, though), then it was Mary who showed all those times, not anyone else, like even if the message changed.

'In honour of Our Lady of the Rosary': heavenly beings never ask for such a thing. The only one that could possibly deserve honours is Our God. Our God and Jesus are not ever going to say that only they can do something for human kind or this world, since the philosophy in heavens will always be that we have to make an effort, in fact maximum effort, to get the things we need or want and we should never work thinking someone else will help us, not even in what comes to our spouses: with them it is more about doing things together, so both contributing, not one helping the other, which implies just giving without receiving or putting more effort into something than the other is putting. Help is something we pay for by being nice to everyone else, complying, doing our share, being altruistic in our thinking and, if possible, also in our actions, etc.

It is all so crazy, like the satanic are so out of earth, that this message basically says nobody knew she was Mary, mother of Jesus, at this stage, since she says that only in October she will reveal who she is and what she wants (yet she seems to call herself Our Lady of the Rosary). The advice, 'make sacrifice for sinners', is once more to help their own cause. Their deity promises that 'her' satanic brotherhood/sisterhood fellows, basically, will be saved from hell if the children do what they say: not really. We concluded that souls that go to hell get destroyed and nobody can save them from there, not even themselves, like not anymore. They say 'poor sinners', yet, as we know, the satanic do it with so much will of sinning that they even have a book and voluntary brainwashing they undergo to sin to the last drop of their lives. Our God and Jesus, therefore we, who are under Our Lord Jesus Christ, will never work with Operant Conditioning reasoning, namely negative reinforcement [65], which is when you suppress punishment if the individual does the right thing: we show you heavens instead, if anything like that. All this happened and is here analysed so that you learn how to tell wrong from right, heavens from hell, and therefore grow in discernment and never accept or allow for these things to happen anymore in this world and to our race. Visions from hell are something to obviously terrify the individual and that is why yet another name for what they do is terrorism.

July 13 (continuation)

"This war will end, but if men do not refrain from offending God, another and more terrible war will begin during the pontificate of Pius XI. When you see a night that is lit by a strange and unknown light [this occurred on Jan. 28, 1938], you will know it is the sign God gives you that He is about to punish the world with war and with hunger, and by the persecution of the Church and the Holy Father."

"To prevent this, I shall come to the world to ask that Russia be consecrated to my Immaculate Heart, and I shall ask that on the First Saturday of every month Communions of reparation be made in atonement for the sins of the world. If my wishes are fulfilled, Russia will be converted, and there will be peace; if not, then Russia will spread her errors throughout the world, bringing new wars and persecution of the Church; the good will be martyred, and the Holy Father will have much to suffer; certain nations will be annihilated."

"But in the end my Immaculate Heart will triumph. The Holy Father will consecrate Russia to me, and she will be converted, and the world will enjoy a period of peace. In Portugal the faith will always be preserved."

"... Remember, you must not tell this to anyone except Francisco [who could not hear Our Lady during the apparitions]."

Our God does not punish human kind with wars: human kind does that to themselves. Our God simply allows for peoples to be destroyed (since Jesus Christ came things are in this way) if they are proven to be worthless or harmful. He lets the devil work on them, so give them disease, deformity, pains, aches, suffering, losses and so on, and, if they still don't fix themselves, so don't turn to Him and Jesus, don't do all those things we now explain for long, and that goes on for a long time, He authorizes the devil to decimate them, as it 'finally' (thanks to Jesus, who asked for their forgiveness, almost 2,000 years later only) happened to 'The Jews' (Attachment no. 7) or as it happened to, as another example, the Barbarians (lasted from 200 BCE to 800 AD,

according to Co-pilot, so 1,000 years). The Roman Empire is yet another 'tribe' that disappeared (27 BCE to 476 AD, according to Co-pilot, so 503 years).

When we are finishing running the first Marcia Hope, we should have created a discipline called Our God's Science, which will serve humanity in terms of explaining and studying the history of Our God on earth and in human kind, so that we should be able to, for instance, prove that the negative impact of the actions of the Barbarians on earth and humanity was inferior to that of the Roman Empire, which is why the latter got destroyed earlier. We have to observe the Roman Empire destroyed Our Saviour, Our Lord, Our Commander, Jesus Christ. They then disappeared in what seems to be almost half the time, when compared to The Barbarians. Co-pilot still says that the Byzantine Empire kept on going while the Western Roman Empire fell and they both originated in the Roman Empire. Research done Our God's way ('I will always tell the truth', 'I will always have good intentions', 'I will always comply', 'I will never panic', 'There is only one God, the God of Abraham, Isaac and Jacob and only one Savior, Our Lord, Jesus Christ') and we will be able to prove even that those who became the Western Roman Empire were more responsible for the martyrdom of Our Jesus than the others.

The satanic say humans must refrain from offending Our God, as for naïve interpretation (direct, literal) of what was said by them, but then we would have to change that into sinning instead, which includes blasphemy or offence to Our God, to desatanize, like to get the right message.

'To prevent this, I shall come to the world to ask that Russia be consecrated to my Immaculate Heart' – doesn't make any sense. Co-pilot says that consecrated means 'made holy'. If I make something holy to someone's heart, what does that imply? We are thinking that perhaps what could be in a Leinha's mind (assuming it was someone like him, since he should be the top boss of the sisterhood these days) is that Russia would be sacred in the heart of the satanic Mary, let's call her Marian, and then she should attack them less, since that would mean they would become more satanic, like, for them, the more evil one does the more sacred they become in their perception. Effectively, 'she' would be asking humanity to make those in Russia be among the worst on earth.

Look at what Co-pilot says: "In 1917, Russia was considered one of the most Christian nations in the world, with Orthodox Christianity being deeply embedded in its culture and society." If those following Christ and Our God were numerous where these news appeared and if they had full access to the message (what we know is not true, as said before), the first thing they would have done is checking statistics: finding out how much of Russia was Christian. Just that would make them realize the message came from hell, not from heavens. It was either the case that they didn't have access to the full contents of the message or they were not actual Christians, like perhaps missing us to give them the right message back then. A Christian is obliged to be always connected to people and to all, to check on everything that comes to them so that they can, first of all, detect the presence of the devil and alert others plus do something about it.

That places and peoples can convert from us asking that they do instead of us making efforts to at least present Our God, Jesus, us, the other envoys from Our God, heavens and what is right and wrong to those: not really. Our God is like a carer or watcher, but not a forcer, and Jesus, who is more with our individual beings, is like a guide, a saviour, but again not a forcer, so that we have to individually ask for them to be 'on', to help and guide us, each one of us, we really have to go for them. It is all absurd! Yet we do notice they have some serious obsession with the Russians, so that, if they told us the truth and all native Australians have been eradicated from earth a few years ago, it is likely that the same has happened in Russia. Co-pilot says that they have 144 million people there while Australia had a bit more than 20 million, so that there might be some chance their original race is still on earth, despite that.

'Not tell this to anyone except Francisco...' Here we get lost, like nothing like that was said in the other messages and therefore there is no sense once more. Whatever does not make sense, does not look right, can only come from the devil, not from Our God or Our Lord: as Christians, we are supposed to first seek clarification, make sure we fully understand things, then judge if that is possible, that such a thing is coming from where it claims or somewhere else.

July 13 (continuation)

"When you pray the Rosary, say after each mystery: 'O my Jesus, forgive us, save us from the fire of hell. Lead all souls to heaven, especially those who are most in need.'"

We believe we have already discussed this part. Please observe that all rosaries contain crosses: please take those out of yours or make your own rosary out of beads only, otherwise it is a sin.

Aug. 19

"Come again to the Cova da Iria on the 13th of next month, my child, and continue to say the Rosary every day. In the last month I will perform a miracle so that all may believe."

"I want you [Lucia] to have two ardors [to carry statues] made, for the feast of Our Lady of the Rosary. I want you and Jacinta to carry one of them with two other girls. You will both dress in white. And then I want Francisco, with three boys helping him, to carry the other one. The boys, too, will be dressed in white. What is

left over [referring to money offerings by people] will help towards the construction of a chapel that is to be built here."

"Pray; pray very much. Make sacrifices for sinners. Many souls go to hell because no one is willing to help them with sacrifice."

We noticed that here it is August the 19th but the first message said they had to appear there on the 13th of each month for six months instead, so that they don't even care to the least about consistency or coherence (and, once more, Christians were not actual Christians if not noticing this and then immediately saying that is coming from hell, not heavens, yet they may not have been given such details by the media. I remember struggling quite a lot online to simply find out what the actual message was by the time I noticed it, which was by the 1980s only, I reckon). We theorize that the difference between the advertised and the actual date of the apparition was due to something like the Macquarie spaceship of 'Nelson' being out of fuel: they then had to wait until they got a new provider/slave (Cacau, my Al Qaeda cousin, gave gasoline to 'Nelson' for free, so that he could fill up the Macquarie spaceship, not sure for how long). It couldn't have been 'Nelson' or the Macquarie spaceship because 'Nelson' should be about 20 years older than us, therefore only born circa 1951, and the Macquarie spaceship was gotten by 1972/3, but these apparitions happen in 1917. The perpetrators then probably used car as the vehicle of the perpetration (carried the replacements inside of the boot in phase out to the place of the apparition then the kids to be offered to Baal/whatever demon it was in the boot in phase out as well once the swap was made).

'Nelson' talked to me about the aurora borealis that happened back then in Portugal (I guessed it all and the satanic let me have access to my memory token): it usually happens far from there but, on that particular occasion, it would be happening there and that is why the satanic sisterhood/brotherhood planned it all for such a time. Co-pilot, and probably all sources humanity has access to at the moment, will say such a thing never happened there in 1917, just because, as said before, the satanic brotherhood/sisterhood have a hold on all information human kind has access to plus they deceive, lie and cheat all the time (basic demoniac principles or principles of hell), so that they also create sources with wrong information in them, including scientific papers that even prove absurdities. That is called Misinformation Campaign in the satanic brotherhood/sisterhood material which we never had access to but believe exists.

Even though sources say the phenomenon lasted for about 10 minutes [66], there are aurora borealis events that last for even hours ([67], 2 hours and 29 minutes). 'Nelson' said this aurora borealis from Portugal was expected to be magnificent because it had been raining quite a lot, like the experts in atmospheric events had informed them of that (they get information from their slaves and this information is kept top secret probably because they want people to believe the things they create to attack human kind with and that is strategic information, since it is indeed something very interesting and atypical plus unexpected. Sources we consulted, such as Chat GPG and Co-pilot, know nothing about rainfall affecting the aurora borealis in some regards, so say colour display: they say it doesn't, and that is then the official information we get from all sources, the satanic rhetoric, yet that is true).

See an aurora borealis that may be more similar to the one they had that day here: [68]. Even though that explains all colour festival involved, it doesn't seem to explain the sun spinning about itself [69] or dancing [70] or making zig-zag [66] or lowering itself to much closer to earth [70], and it also doesn't explain the image of 'Mary'. Leinha says that the girl asking the crowd to close their umbrellas ('Lucia', [69]) was important for the girl to feel like she commanded them. 'Nelson' seems to imply that they were asked to do that because, in this way, the lights would come over their bodies. We don't imagine satellites being used here yet because those appeared only in 1957 (Co-pilot) and it was 1917, so about 40 years before they appeared, but we think the satanic gap is smaller than that. We theorize the satanic used the head bug/666 here to make substantial part of the attendees experience/see all those things because thousands of them only experienced/saw the aurora borealis [66], which can only mean those thousands would not be bugged/moved by the satanic but the others were. In this case, the thousands who experienced all those things ended up there from being moved by the satanic as well, interesting enough: a lot of investment/labour/effort involved in this attack. The girls then also saw the figure of 'Mary' through their head bugs, so that nobody who were around, and could not be imagined to be present on the day and time (by the satanic), would have been able to see 'Mary' if they tried, which must be the main reason for the satanic to ask the girl to be secretive about her visions there and also to keep the small family quiet until the last apparition.

We tried to find a recording of what happened back then but had no success: at most a movie that looks like something made with actors, a production, nothing real (the camera focuses on them exactly when they speak, for instance [71]). That is because the movie would make us see no apparition and no funny movements of the

sun or anything like that: just the aurora borealis, when any person who works with that particular area of science would have identified the phenomenon as such and would then have let humanity know what it was.

The statues are there in order to make the kids sin and induce others to sin too. As said, Our God and Our Lord are against those.

We then start wondering about filming but Co-pilot explains why making one out of the actual images was not a possibility back then: “Portable film recorders as we know them today did not exist in 1917. While motion picture technology was well-established by then, the equipment was bulky and required significant setup. The development of truly portable recording devices came much later, with innovations like the Nagra tape recorder in the 1950s. In 1917, filmmakers relied on large, stationary cameras for recording, which were far from portable. The idea of compact, mobile recording equipment was still a distant dream.”

About pictures (Co-pilot again): “There are no known photographs of the Virgin Mary herself during the Miracle of the Sun in 1917. While the event was witnessed by thousands and some photographs were taken of the crowd and the phenomenon, none captured an image of the apparition of Mary. The accounts of her appearance were based on the testimonies of the three shepherd children who reported the visions.”

Still from Co-pilot: “There are no verified photographs capturing the “dance of the sun” during the Miracle of the Sun on October 13, 1917. While some photos exist of the crowd gathered at Fátima, the extraordinary solar phenomena described by witnesses—such as the sun zig-zagging, descending, or emitting multicolored light—were not captured on film. The technology and conditions at the time likely made it challenging to document such an event.”

In this way, all was easy to get away with for the satanic brotherhood/sisterhood this once more.

Sept. 13

“Continue the Rosary, my children. Say it every day that the war may end. In October Our Lord will come, as well as Our Lady of Sorrows and Our Lady of Mt. Carmel. St. Joseph will appear with the Child Jesus to bless the world.”

“God is pleased with your sacrifices, but he does not want you to wear the cords [around your waists as a penance] to bed. Keep them on during the day.”

“... In October I will perform a miracle so that all may believe.”

According to Co-pilot, there is no evidence in the direction of any of the mentioned Catholic icons appearing in October that year, so that this also testifies on it all being a hoax. Notice that Jesus Christ, Our Lord and Saviour, stopped being a child more than 2000 years ago, so that it made no sense by the time of the utterance already.

Oct. 13

“I want a chapel built here in my honor. I want you to continue saying the Rosary every day. The war will end soon, and the soldiers will return to their homes.”

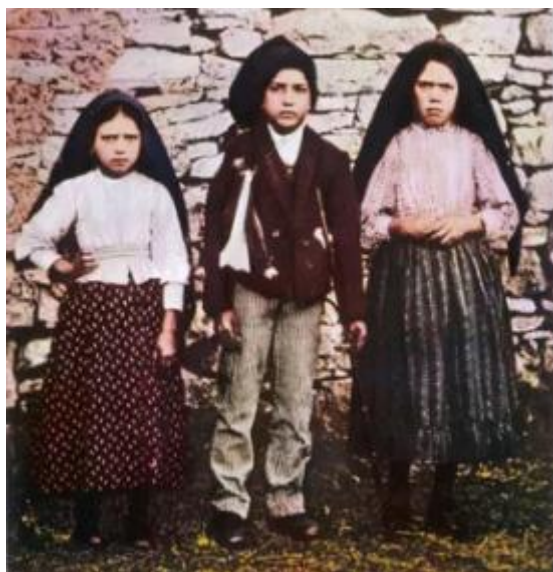

“I am the Lady of the Rosary.”

“... People must amend their lives and ask pardon for their sins. They must not offend Our Lord anymore, for he is already too much offended!”

Then the “Miracle of the Sun” occurred, as Our Lady promised.”

It seems that we have already spoken about this.

Now let's delve into the usurpations of the three children involved: **Lucia dos Santos, Jacinta Marto and Francisco Marto** [62]. On the day of the 1st Mary's Apparition, so on the 13th of May of 1917, Lucia was 9 years old [62]. Jacinta was 6 years old and Francisco was 8 years old [62].

[62]

[72], 1917

These two pictures show two different people figuring as Lucia, then two different people figuring as Jacinta, then two different people figuring as Francisco. The shape of their faces is strikingly different. While Lucia, in both pictures, is clearly a male (shape of the face, the leftmost one is U-shaped and the rightmost one has masculine jaw), what makes of her ID a satanic transgender one, Jacinta leaves a bit of doubt, yet they both have similar shape of face and the jaw of [72] is very masculine. [62] seems to be a U-V-shaped face with some injection of some type to make it have a rounder aspect to the sides. Jacinta is therefore also a satanic transgender experience. 'Lucia', in both cases, looks like someone originally from Egypt, so that they seem to be treating Egyptians in a way to state to us that they should command human kind (Leinha's remark about the umbrella thing).

[73]

The leftmost picture leaves no doubts: it is all men, given their body posture/standing. In the rightmost picture, the chins are all masculine. These two pictures show two different versions of each ID. Noses will help you agree with me. We then don't seem to have the original children anywhere online. That is explained only with the murder of the three kids already on the first apparition. All these images are then of black African men or African male descents who then were changed into whites by means of the 666s.

Co-pilot: “Francisco Marto and Jacinta Marto, siblings, both passed away young due to the influenza pandemic of 1918-1919. They were later canonized as saints for their devotion and sacrifices.” That matches the declarations of the satanic Mary to them: that she would take Jacinta and Francisco soon. Because it does, the disease was simulated via bug and they were then killed via bug too, so probably heart attacks after a certain amount of time looking very ill: flu is something easy for them to simulate like that back then, so just symptoms. See here more details given by Co-pilot: “In 1918, during the influenza pandemic in Portugal, diagnostic methods were limited compared to modern standards. Physicians relied on clinical observations, such as symptoms like fever, cough, and respiratory distress, to identify influenza cases. Laboratory techniques for detecting the virus were not yet developed, as the influenza virus itself was only discovered in the 1930s. Diagnosis was largely based on patterns of illness within communities and the rapid spread of symptoms among populations.”

Leinha told me she was going to put ‘Lucia’, basically, I now see, to become a nun (now I have my memories for that conversation, like the part that matters only). Since this had already happened long time before she told me that, it can only be that she was letting me know that ‘Lucia’ becomes a nun because the sisterhood forces ‘her’ to, so manipulates her will/thinking/spirit through bug. They probably then did the same they did with the nuns from Santa Teresa de Jesus in Rio de Janeiro, which is usurping the entire convent, probably using the satanic transgender to get information about the fellow nuns and perhaps usurping by the littles. In this case, we imagine all the Portuguese Discalced Carmelite nuns’ IDs from ‘Lucia’s convent in Coimbra [74] also became satanic transgender experiences.

Here you see the black African male as a nun:

[74]

We theorize this sort of face, like a brick’s end on the chin area and opening to a sort of V shape departing from the line of the chin, uniquely identifies Egyptians. Yet we now believe they may have something like tribes and those with V-face belong to a different tribe, so that the ones that are ‘adored’ by the satanic, therefore the worst men ever alive, must have this sort of face: with jaws that are extremely big and slim face.

We notice that the scoff on the Christians is never ending: that one of our churches would have a system of award of titles of saint that is so faulty someone who is the ‘king of the sinners’ could end up being canonized. Here I hope ‘he’ was fully moved by the sisterhood already before they asked him if he wanted to usurp, like what the individual seems to think doesn’t have to be the actual truth, in case ‘he’ thinks he usurped because he wanted to do it: that might be one more of the satanic narratives. This because, in the Catholic Church, for a person to be canonized, it is necessary that they satisfy some criteria and one of them is miracles (at least 2 miracles are needed, even though there are exceptions). The other two have already gotten canonized and this one is on the way, according to [75]. As we know, they usurp even the pope, this for ages, so that getting someone canonized became an easy task, just like getting an Oscar for someone (also fully commanded by them). They actually seem to dictate results of everything on earth for ages, including elections, as explained in [76].

III. Conclusions

The satanic brotherhood/satanic bible has got 33 degrees of pertinence and this number was chosen because of the angle formed between Nubia (ancient map) and Israel (modern map) because Israel, for them, means ‘freedom’, so that the degrees mean that, when the individual reaches the 33rd degree, they are as free as those black Nubian African males were by the time of Moses. Moses was the biological son of two white Phoenician people (the African blacks nicknamed them Israelites because of what the own African blacks invented, the narrative involving the place the own African blacks intended to call Israel (‘is’-‘ra’-‘el: ‘is’ is ‘he’

in Latin, ra is for Ra, Egyptian deity/demon, and el is for El, Israelites' preferred deity/demon. Israelites were black Africans who escaped slavery in Egypt through usurping the life of white Phoenician people who trusted Moses and the narrative given to him by the black Africans through those pretending to be Our God and then followed him, escaping slavery in Egypt) in the future, in the same way they invented the term Canaanites for the people who were supposed to live in Canaan, the promised land, which may indicate that also those were lured and murdered by the black African people²) who were slaves in Egypt of who seems to have been the Pharaoh and his family. A black African heterosexual couple from Nubia, whose members also were slaves of the Pharaoh and his family, the wife being a personal slave of the daughter of the Pharaoh, plotted against the wife of the father of Moses with her husband because she didn't like the fact that the white woman had no complaints about her husband or her marriage when she tried to talk about this sort of thing with her, so common problems they faced in their marriage. It was probably the husband who suggested that, to make her happier, they made the white Phoenician woman have their problems³. Her husband then started to stalk Moses' father and entice him to sin but the white Phoenician man stood his ground and rejected him. The black African man from Nubia then tried different tactics to make the white Phoenician man start liking him and finally managed to make him laugh by telling him a joke, what made him understand that jokes were the path to the white man's soul. The black African man then carefully planned his next attack on the white Phoenician family with the black African wife. He then approached a white Phoenician woman who looked single and asked her if she had somebody. She then said she didn't. He then asked her what she thought about Moses' father, so that he probed her. He then thought she didn't have anything against him and he could then proceed. He then approached both when they were accidentally next to each other and threw a joke of sexual nature (something like 'wouldn't you like to have someone like him to come back to when you go to bed') to her involving the white Phoenician man in front of him. She blushed and went away. That then happened again but, this time, the white Phoenician man stared at her to watch her reaction. Next time the black African man showed the white Phoenician man her house when talking about it, that it was nearby and it would be easy for him to go there, and that is how Moses came about.

The white Phoenician man then complained to the black African man: that the woman the black African/Nubian man made him take became pregnant, but he had wife and all else. The black Nubian man was listening to his wife talk about the Pharaoh's daughter, who was victim of rape by the father on a frequent basis: that she was annoying her because she was frequently crying in desperation where she passed. The black African/Nubian wife was listening to the husband talk about the white Phoenician baby that was about to be born. The black Nubian man's wife (we now believe it was the wife, even though the devil said it was him) then decided to take advantage of the situation: they would use the white boy that was about to be born to save themselves from slavery. According to the own black African, 'Braganca'/the devil, the black African/Nubian's fellow, another black Nubian male slave, added that the Pharaoh used to refer to the daughter as 'cow', yet we believe that who was called 'cow' was the wife of the Nubian slave who plots instead, this by her husband whenever he spoke to the Pharaoh⁴. The name Moses is then created by the Nubian blacks who were slaves of the Pharaoh (following

² Notice that the whites use other endings when trying to say a person is from a certain people or tradition. For instance, those following Christ are Christians, ending on 'ians', instead of Christinites, or Africans instead of Afriquitoes, if they are from Africa, so that, were it white people to name those, they would say something like Canaans and Israeli or Israelians, but not Israelites. We believe the black Africans mean to mock those races and peoples by adding those endings because they are then saying the own black Africans are those people, which effectively means the 'ites' is there to disparage the own black Africans for obvious reasons.

³ We believe the Nubian black African wife was betrayed by her husband, since that is the most common reason for unhappiness in marriages and the husband called her 'cow', as for our best guesses, which, for us, means sure betrayal. The husband then, instead of thinking of fixing his morality upon hearing the indirect complaint of the wife, proposes making the other woman as unhappy as she is, which is the usual behavior for the typical carioca men, who we now think are all ex-African blacks

⁴ Considering what we know about social classes and who is used to do this sort of thing. The black African men introduced this 'cow' thing to Brazilian culture through Rio de Janeiro and their own people, so that men from Rio also call women cows and that, we notice, is because the cow is an animal and they believe society allows for humans to treat the animal as an inferior being, so without rights, and some black African men had intercourse with animals by means of their rear and that doesn't mean anything to them, like they don't get emotionally attached to the animal or believe they should be loyal to them or something, like they can then have sex with anything or anyone else, so not a marriage. Of course that does imply they don't really see rape as an act of violence or crime but as an act of marriage instead, which then once more proves that the heads/spirits creating Islam (which, among several others, makes rape become marriage, so that not only the woman is raped by the deity/Islamic male involved, but she must pay respect, serve, obey and have sex with him for the rest of her life) or satanism can only belong to the same 'subspecies' or be of 'the same type'

suggestion of a slave that was apparently from Italy), and therefore who must have lived in the Pharaoh's property, and it is supposed to mean 'cow uses', so Mu-uses, this because the Nubian wife, who didn't like the wife of the father of Moses, wanted to use the white Phoenician boy to save herself from slavery. In the end of the story, though, it seems that the black African/Nubian man, who goes after Moses and his selected slaves, and then reaches modern Israel, never came back for his wife, who had decided to stay behind, probably saying⁵ that was a job for men (Attachment no. 5).

Moses never made it to the border of Arabia, modern Israel: he and all the mass of white Phoenician people he was leading out of Egypt were mentally and spiritually coerced into committing suicide by jumping into the waters of the Red Sea, whose name was also given by the black African men because of the massacre that there happened, the blood of all those people. A Nubian black African man, who is likely (99% of chance) to have been the husband of the personal slave of the Pharaoh's daughter, pretended to be Our God and ordered that they all jumped into the Red Sea at the same time. We believe he made Moses make the gesture with the walking stick and told them all that that had made the sea open.

The Israelites are then the black African men who replaced Moses and his followers a bit before those arrived in modern Israel. The Jews are something different from the Israelites: it is possible that those already lived in Arabia by the time the Israelites arrived (however we have presented some good evidence here in the direction of those ALSO being black Africans originally). The Israelites stayed by the sea because, among others, that made them more invisible to the local people (those must have been all white before they arrive) and they could use the sea to get rid of the corpses of those who they killed when taking over their assets, specially real estate properties, and they may then have usurped their IDs as well, acquiring therefore a third ID in their lives at that stage (the Nubian or African one, the Moses' followers or Moses' one, and that of the property/assets righteous owner).

Amen is a word that comes from Amun-Ra, a top Egyptian deity/demon in the sense of popularity, since Amen is another name for Amun. The satanic brotherhood made all Christians say Amen all the time because they believe that, in this way, Christians are invoking that particular deity/demon and therefore requesting their own death, which the satanic brotherhood/sisterhood is always happy to give, as if they were the God's Wife (wife of Amen) from ancient Egypt.

The masoretes were Israelities (black African men escaping slavery in Egypt) who invented there was something wrong with the Hebrew language (Attachment no. 5): they wanted vowels between the consonants because that is how all the other languages they knew were. They then invented that the name of the Hebraic deity was Yahweh instead of what the Hebrews (the Hebrews were also the black African men escaping slavery

in Egypt) were used to, which is  in block script.

The Hebrew language seems to be based on sounds that are different from those emitted by us or those who make use of the Latin/Roman alphabet [77], so that there is no possible conversion that is accurate from their language to ours, which literally means only learning it to be able to pronounce their words if we have American/Australian/English/Brazilian background.

Exotically, we found sources that stated ([20] was updated from the day we saw the table we here passed, which was 31/03/2025, to today, 4/04/2025, when the table disappeared) that the Phoenician letters (alphabet) can be converted, with no mistake, into the Hebrew letters and vice-versa (Co-pilot says: "Hebrew and Phoenician are both ancient Northwest Semitic languages, sharing similarities in script and structure due to their close historical and geographical connections. However, they are distinct languages. Phoenician was primarily used by the ancient Phoenicians, a maritime civilization known for their trade networks around the Mediterranean. Hebrew, on the other hand, developed among the Israelites. While their scripts (early alphabets) are related—Phoenician script influenced the early development of Hebrew writing—they diverged over time, with Hebrew evolving into its own language with unique characteristics.").

We, however, concluded, after performing the studies found in the Attachment no. 8, that the Phoenician-Hebrew alphabetic letters equivalence table from [20] is equivocated, yet the Israelites have used this pretense equivalence to convert the name of the Canaanite demon/deity into our graphemes/alphabet, then reaching the name Yahweh. We then studied the Phoenician symbols that designate their demon (we decided that that is the

⁵ Considering what we know about the black African race from having lived in a place full of them, Rio de Janeiro, for about 29 years, and sometimes even having shared house with them (my Al Qaeda grandmother had black African descents working for her as maids (she paid about 2 minima wages or something per month and still gave them all living expenses paid for through having them living in a small bedroom of the apartment). We believe all African and African descents of modern Rio were criminally transported to there by the satanic brotherhood and the brotherhood got them all bugged before they embarked, so that all crime in Rio, which seems to come exclusively from the African descents or Africans, seems to have been caused by the satanic brotherhood, who seems to initially have accumulated them on the mountains (nowadays called slums/favelas)

only one that could represent a deity. See Attachment no. 8 for arguments) and reached the following possible translations into English: YHWH, EAHWH, YHUH, YOH and EarHUH. The letters are then probably translated correctly now, as for the sources available, but the problem is that the letters carried ideas in Phoenician, so that we could never have translated them into other letters and stopped by there: they needed to be translated into ideas/concepts instead ([83], p. 140). [84] then brings the ideas connected to the four symbols contained in the tetragrammaton in Phoenician: hand-window-hook-window. Now it looks that it means that someone was installing a hook on a window. [84] found such a translation online and its source claims that this information is used in a few other sources: Phoenician Canaanite Encyclopedia, Phoenician Encyclopedia, Punic Encyclopedia, Canaanite Encyclopedia, Encyclopedia Phoeniciana, Encyclopedia Punica and Encyclopedia Canaanitica. If we look for the ideas contained in the letters in Hebrew, so in yodh-he-waw-he, in the sources [84]-[88], we end up with exactly the same translation, perhaps with 'nail-edge' instead of 'pin', but that is all.

We must remember that the black African males found the supposed Judaic deity/demon from taking what seemed to be a word from what we think was a library book on accounting (it is all made by the Israelites or satanic brotherhood/sisterhood, then it might simply be that they take that from even an accountancy book. 'Braganca'/the devil says so (since I guessed, the satanic gave me the respective memory token). They must then have taken these letters from a source they found in a local library by chance (just like they found one of the books they used to compose the bible we currently call Christian: two forefathers were at the library and saw a book that was simply forgotten there, like that nobody seemed to care about, on a shelf. We now believe that book had the correct stories of Abraham, Isaac and Jacob but they then perverted/adulterated/satanized all and mixed it with the satanic bible (Adam and Eve creation) and other books). They didn't know the local language of where they were, we must also remember that: Israel is likely to have spoken Arabic by the time of both invasions we have reported so far (Moses' time one and the foundational invasion (of the satanic brotherhood and sisterhood forefathers) and they should know Egyptian and their native language, which was probably Nubian on the first invasion, and Egyptian on the second one. They believed a lot in deities (remember where the name Aramaic and Hebrew in Hebrew came from) and they were attacking the local peoples of where they invaded, so that they thought that, if they induced them to praise the wrong deity, they would be more likely to never react or even notice they were attacking them. They would not give us a demon because they use those for themselves and therefore they think they are powerful and, if we followed them, in their belief, we would have more chances instead of less, so that our first intuition, that the tetragrammaton stood for demons' names was obviously incorrect.

Co-pilot says that both letters (the 'h' in Phoenician and the 'h' in Hebrew) represent the number 5, so there they are equivalent. Yet notice that 'h' in English is not the same as '5' either. This is the situation with two of the four letters used in what the Israelites called tetragrammaton, but we expect the other two letters to cause similar trouble. For some reason, the name they gave, 'tetragrammaton', makes us think of numbers instead of letters (perhaps Mathematics: pentagon, decagon and octagon).

From Co-pilot:

The name that was translated into Yahweh (YHWH) corresponds to four letters in Hebrew, known as the **Tetragrammaton**: **yod** (י), **hei** (ה), **waw** (ו), and **hei** (ה). These letters carry numerical values in the Hebrew gematria system, which are as follows:

- **(yod)** = 10 י
- **(hei)** = 5 ה
- **(waw)** = 6 ו
- **(hei)** = 5 ה

So, the total numerical value of the Tetragrammaton is **26** (10 + 5 + 6 + 5).

In Phoenician, while the letters are closely related, they would likely carry the same numerical values because the Phoenician numeral system assigns similar values to corresponding letters. For example:

- (yod) = 10 י
- (hē) = 5 ה
- (waw) = 6 ו
- (hē) = 5 ה

Thus, the numeric total remains **26**. It's fascinating how ancient scripts intertwine language and numerology, isn't it? Let me know if you'd like to explore any related insights!

We then learn that the Hebrew deity might be a set of numbers, so 56510 (even though they also invented that a yod followed by a he would not be 510 but 15 instead (Co-pilot). Please notice here that both Phoenician and Hebrew are read from right to left. We have to imagine this mass of non-schooled blacks from places where the Africans enslaved people and sold them as slaves, such as Nubia (main provider of slaves to Egypt), arriving in

what they thought was 'paradise', given that they would finally be free there, but then finding only whites and staying by the border until some black came around and they could usurp another, in case they had something of interest, so say real estate property or access and biography involving frequent attendance to the local library. They would be always declaring that they were 'libre-est' in Latin (modified to Arabic accent) language (it seems that that is very similar to the Portuguese language, where 'libre' became livre. We got to this conclusion because Co-pilot said that the word 'Hebrew' in Hebrew was 'עִבְרִית', pronounced "Ivrit" and we then went to [22] to listen to that), so that they were simply saying 'is free', whenever someone asked where they were from (and here we can see that the Nubians were dominating the bunch, so that it is likely that all those replacing Moses and Moses' white Phoenicians bunch were Nubians, even because the satanic deity that hides behind the bush says 'my people' (Exodus 3:10) to Moses, which has to imply a single people, not several, and here we can imagine that the Israelites were just the Nubians originally). They did this because they probably had no idea where the whites from Moses had come from. Back then, when of the first bunch of invaders/murderers attacking the first whites from outside of Africa, so by the time of Moses' life, and that is then somewhere between 1592 and 1271 BCE, there was no Israel, like Israel is a name appearing only after 600 BCE (Co-pilot), so that this ALSO proves that the bible we nowadays call Christian (and the Jewish book) was written or rewritten after 600 BCE, not before that date, since the original piece of Genesis where the satanic deity says that brings the word Israel in Hebrew. Co-pilot says that, in the bible, the word used for "Israelites" is בְּנֵי־יִשְׂרָאֵל (B'nei Yisrael) and it literally translates to "sons of Israel." This is yet another way of proving that the bible is a demoniac book in almost all or all of it, only accidentally containing something that could correspond to the facts of history or the feel and looks of Our God or the truths about heavens and hell, Jesus and Our God or the right ways of praising Our God or getting the help of Jesus and others.

We are saying the people Moses collected had his skin colour and were of the same ancestry and we are calling those Phoenicians for guessing that is their original pack, what the blacks call Canaanites. Even though they say the Canaanites included the Hebrews, we concluded the own blacks are the Hebrews instead and there is no chance those were part of the Canaanites, since they were collected from the own Africa. We believe The Jews were already in Arabia and came straight from the Canaanites but were never in slavery in Egypt. It seems that Egypt, back then, would get slaves in several ways and the Canaanites were just one in many possibilities, yet the black slaves would be much more numerous and only accidentally, say by means of a war, would the Egyptians get whites.

In any hypothesis, Yahweh is a demon/another non-God creature, not the god of The Jews, as originally made, for it is a deity adored by the black Africans who usurp, the so-called Israelites, by the time of the first take over in white people's lands. The devil/'Braganca' tells us that their deity is actually a number extracted from an accounting book, which we theorize belonged to the Phoenicians or The Jews, probably one that rested at the same library where the 2nd and 3rd people to ever have contact with the satanic bible found what seemed to be a religious book, which they later on would rewrite and give humanity as being the bible (we now believe this book had the stories of the lives of Abraham, Isaac and Jacob only and they then changed their biographies completely and created another book from it). After the attack from 600 BCE by the satanic brotherhood members, so again the black Africans who used to live in Egypt, the satanic write or rewrite the Old Testament, and that is the book of The Jews, so that they then inserted Yahweh there, on top of a variety of other things. There is then a chance their god was originally Our God, so the God of Abraham, Isaac and Jacob.

We now believe Tracy Chapman was a white male of English ancestry who got murdered by the satanic sisterhood before he reached the age of 5 years old and the usurpation of his ID happens since then in the ways of the satanic transgender experience, which means a black man is changed into a woman to occupy it each time.

We now believe Louis Armstrong was murdered way before the official death of the ID and he was originally a white man whose biography in much disagrees with what is currently presented by popular encyclopaedias.

Karl Marx and Friedrich Engels never wrote the Communist Manifesto in 1848 because, by that time, they were both long dead. Who wrote this unacceptable Manifesto was the satanic brotherhood and they obviously had, as intentions with it, inflicting injury, pain and suffering on humanity. This confirms that Marxism and Communism are extremely different things: Marxism is from heavens and Communism is from hell, basically.

Vladimir Lenin was never involved with communism, since he was murdered by the satanic brotherhood when he was less than 10 years old. Who implemented this demoniac regimen in the world for the first time was then the satanic brotherhood, which means that the intention with such a thing were always inflicting pain, injury and suffering.

Mary's apparitions in Fatima were all fraud and perpetrations of the satanic sisterhood/brotherhood, which basically means that all those messages should be entirely disregarded. If Christians ever use prayers they do not create by the moment they are praying, they have to know that those can only benefit others, not themselves, and, even so, they must declare the intentions of the prayers to Our Lord and Guide, Jesus Christ, and go through a series of steps in order to simply have a chance of being heard. They should not use the rosary

because it contains a cross and that is a demoniac symbol: they can however use beads or another system of counting and marking intervals if praying the prayer of others. They should never use the word Amen. They should be careful with each prayer said, especially if coming from others, so that there is nothing that means sin or disrespect in any of them. Nobody should pray for souls that are in hell: those are undergoing due punishment and will be destroyed by the devil in due time. Photos and statues are seen as praise or adoration of satanic nature for that strongly connects to death and disregard for the humanity in humanity. The Miracle of the Sun was simply an aurora borealis and the 666 in people's heads, so that it was all perpetration of the satanic sisterhood/brotherhood. References to the heart of Mary as an object that provides feelings or experiences is satanism/adoration of the devil: the satanic sisterhood/brotherhood created that to make us keen on actually practicing cannibalism.

Lucia dos Santos, Jacinta Marto and Francisco Marto have all been murdered by the satanic brotherhood/sisterhood probably on the day of the first Mary's apparition in Fatima, and at most then, with the feminine IDs then becoming satanic transgender experiences.

'Lucia dos Santos' becomes a Portuguese Discalced Carmelite nun and starts living in a convent in Coimbra, which means a satanic sisterhood slave, who we believe was originally an Egyptian/African black man, is living in a place that is made strictly for women and women seen as the most connected to Our God. We then theorize 'Lucia' caused the murder of all the natural women from at least this convent and they were then all replaced with satanic transgenders/black African/Egyptian males like him.

'Lucia', 'Jacinta' and 'Francisco' all entered the Vatican's cue for canonization and, if any miracle actually happened, that would have to be blamed on the original person, a martyr, not on the usurper or demoniac creature occupying the ID: the way we imagine that would be possible is if those asking for their intervention/help never used their pictures when praying, so that the name worked as a connector with the beyond and the soul that received the request was that of the original person. More research is needed and we can put that in the basket of matters to be investigated inside of Our God's Science, a discipline that is yet to be created at humanity's universities.

We believe there is a high chance most of humanity is moved, therefore forced, by the satanic sisterhood/brotherhood to their situation and roles in society and we all have our thinking/spirits manipulated by them in almost infinitely many ways most of the time.

We are the Twins of God, sent to restore this world and human kind and we have a wonderful plan to fix all but we need your help first with a few things. May Our God bless those who do what we ask immediately.

Attachments:

1) Moses as an eternal victim of the satanic brotherhood

One of the black African slaves would have pretended to be a god and would have hid behind the bush to do so when Moses was watching the sheep. He would have dug a trench around the bush, at a safe distance from the bush, and would have made fire from animal fat. He chose Moses as the victim for this attack because Moses killed a black African/Egyptian slave owner who was beating an Israelite non-black slave. Moses got his name

from the thinking of the daughter of the Pharaoh, who found him in the river: Moses means ‘out of the water’ in ‘Egyptian’ [10]. A black African/Egyptian woman who watched the situation of the Pharaoh’s daughter felt pity on her: she was raped by the own father, who lived with her in the same house, with frequency. She cried on her own and was watched by their slave, this particular black African woman, who we theorize was a Nubian. The two women then conversed a few times and, each time, the slave tried to act as consolator for the Pharaoh’s daughter but she was progressively feeling like she had to do something. ‘Braganca’/the devil says that the black African slave felt annoyed that that was happening: he seems to think it is truly important that we understand that the black African female slave did not feel pity. She felt annoyed instead and he is the devil, so that he fixes us whenever we fail synchronizing with the ‘waves from the Holy Ghost’, so that this is truly important, the how they actually feel about others releasing pain and/or suffering through crying. The slave was married to another black African slave and she would go home and share the dramas of the Pharaoh’s daughter with him each time. He said the black African men would never care about that because they were in slavery and that was worse than being raped and they didn’t care about their own situation. He also said they knew the Pharaoh would call his daughter cow when he spoke to them/the black African men who he had enslaved. The personal slave of the Pharaoh’s daughter then shared that with other female black African slaves, and the black African female slaves always believe their husbands speak the truth to them back then, as if they were Christian couples, plus they reasoned that they themselves would do nothing about those things either for the same reasons, so that they concluded that, if someone were to save the Pharaoh’s daughter from future rapes somehow, it had to be someone who were not from their people and that is when they remembered the ‘Israelites’, therefore the non-black slaves, a very atypical thing in Egypt. They decided a male would give the Pharaoh’s daughter best chances of being saved, since they were more aggressive and physically powerful. Yet, the black African people all believe that there is a price to be paid for any possible altruism, that it is impossible for the human being to help another out of the generosity of their hearts and therefore out of their connection to heavens. They then thought that, if the non-black baby were raised well by her, so in a Christian way, he would think he owed her something and that is then the only way he would help her, like, even so, it would depend on her luck, just best chances. The black African personal slave of the Pharaoh’s daughter, together with her black female African fellow slaves, also wanted it to be clear that the Pharaoh’s daughter was then not helped by someone from her own kind, since she was part of the group that attacked/violated/enslaved those, and she then plotted with the Pharaoh’s daughter and said she had to name the child Moses and tell her father it was because of Mu together with uses, inventing the root uses, but betting on the ignorance of the father, since the black African slave still wanted to tell everyone else that they proceeded like that, so inflicting pain, injury and suffering to human kind, because they did not love wisdom/knowledge/information of true nature, therefore because they didn’t love Our God, the God of Abraham, Isaac and Jacob (the black African women in slavery, with whom the personal slave of the Pharaoh’s daughter shared all that, went home and told their families about all, so that one of their sons asked for them to name the boy Moses and tell the father that was ‘water’ (‘mu’ in Egyptian [10]) plus ‘uses’ (‘mu’ would also be the sound the cows make in Portuguese, which has roots in Latin, and ‘uses’ as in English, which also has roots in Latin, and, since Co-pilot says Nubian has nothing to do with Latin or Portuguese even though it said it generated it in the recent past, we conclude that there was someone from Italy, so some forefathers of the Latin language, in slavery there too and those then made the suggestion involving the name Moses and escaped to Italy soon after getting told that the Moses’ trick had worked well for the others, which must be when the Nubian husband got to learn about his wife having been forced to suicide by the government, so that they could praise Amen). They calculated the Pharaoh wouldn’t even care, for, for the demoniac/satanic, the details don’t matter: loving details is praising Our God, since His ‘magic’ lies on the details of all He created, and that is where His magnificence is acknowledged by us if we practice placid contemplation. For instance, some rocks present out of the world/priceless and perfect geometric shapes inside and/or outside of them that we now acknowledge human kind or random winds carrying sediments would never be able to print on those [12]. Moses grew old and had not done a thing to help the ‘mother’, daughter of Pharaoh, in what regards the main intent of the slaves, so that the male African black slaves who knew the story decided they were going to see if Moses ‘finally’ would do something for the expected people and they then organized, through the female African black personal slaves of the Pharaoh’s wife, that she would send the Pharaoh to pass reprimand on an Israelite who was in slavery at a certain place where she would also make sure Moses would be. Moses then, putting that together with the mother’s ordeal, cannot resist and kills the Pharaoh. Since there were eye witnesses (probably the own black African male slaves), he had to leave that location and that is when he flees to Midian, which was still part of Egypt, east of it (Co-pilot). All these things have been told to me by the devil/‘Braganca’, since I guessed and the satanic then released the respective memory tokens. The black African slaves did not like two particular Israelite women, therefore two non-blacks, probably white, women (the married one was not liked because she seemed to be too happy with her marriage: in the words of ‘Braganca’/the devil, she tried to converse with the white woman and find out about her husband, looking for complaints she could have but the white woman had no complaints whatsoever and the black then thought that

that was not acceptable). They then plotted against them and tempted the Israelite husband of one of them, so that he would end up having intimacy with the other ('Braganca'/the devil says that initially the white man seemed unshakeable but the black man stalked him and ended up finding a way through when he succeeded in making the white man laugh. Someday he had a light joke and the white man laughed about it. He then managed to create a joke involving bed when the targeted woman who was not the wife was around and he told that joke staring at the targeted woman, it was a suggestion of her being in bed with the targeted man. She initially blushed and the white man ended up staring at her to see her reaction. Another day he did it again, so the black guy, and one day she ended up staring back at the targeted man. He had then already accepted sinning without knowing and the woman he sinned with became pregnant. They then later on convinced the woman to give them the baby, who was then Moses. They later on invented the narratives, so that he was the illegitimate/incestual son of the Pharaoh with his daughter instead (told to the negroes like that) or he was the son of an Israelian couple where the husband was called Amram ('I am a ram', that is, 'I am a sheep', just because the man did what the negro made him do and that was sinning to highest and ruining his Our God's coupleship with his blessed wife) and the wife was called 'Jochebed' (Exodus 6:20, 'joke', 'he', 'bed', since he would have joked by saying he would be in bed with her before she accepted it, following the orientation of the negro African men). The parents of Moses would have both come from a common ancestor called Levi (Genesis 29:34, notice here, in this passage, how sordid the negro African men are [13], since they imply that the husband of the white woman gets 'attached' to her exclusively because she has three sons with him, and that he gets attached instead of having consciously joined her as a Christian partner, with the intents that they become the strongest Our God's couple around instead. It is very common, in African societies, that the woman tries to become pregnant as a way to have a husband or keep him with her and that became standard practice also in Rio de Janeiro after the negro Africans replaced the original/natural population, which was almost totally white, with their type, initially painted in mulatto colour, after they mixed, like initially they seem to have simply accumulated there in pockets around the 'white city'). Levis, in Latin, means light, as in not heavy (Co-pilot), so that the black African people were taking yet another scoff here, making us repeat what they took to be a negative adjective for the whites they back then knew as Israelites, which is the nowadays 'transparent' from Rio, like a person who is so thin that they are not even seen. After Moses murders because of the African black slaves from Egypt and then escapes to another location inside of the same Egypt, probably following the advice of one of the black African slaves somehow, say through the 'mother', the black African men still go after him, to where he was, to do the bush thing. They take a while, though, to go after Moses in Midian (Moses even marries there, see Exodus 2:15-25 and Exodus 3:1-10) because they were testing their hypothesis: that one of them could replace even a Pharaoh without anyone being able to do a thing or perhaps without anyone willing to do a thing against them. That is then probably when the crime we now call usurpation started [3]. Based on that success, they went for their next plot, which was that of saving themselves through usurping the Israelites' lives and ending up in Arabia in a way to be believed as being those. They then plotted in a way to have Moses collecting all Israelites and marching with them in a direction which would mean sure death for them all (they could have gotten to Arabia safely by going to the top of Egypt and crossing from there but instead the African negro men told them to go in the direction of the Red Sea, still where the waters were deepest and the crossing was longest [14], since the black Africans then wanted to replace them and get to Arabia (modern Israel) in a way to be accepted as if they were its natural people (I then imagine that the negro African who hid behind the bush appeared at that stage and told them to jump all together into the water because he was going to help them cross. I also imagine the name of the sea became Red Sea because the negro African males wanted to refer to the death of them all there. Even though the map in [14] already reads Red Sea, that is a modern name, so probably given by the black African males who usurped the two library attendees [15]. See what Co-pilot tells: "The Hebrew Bible refers to it as Yam Suph, often translated as "Sea of Reeds." This name suggests a connection to the vegetation around the sea rather than its color. The exact reason for the name "Red Sea" remains uncertain, with theories ranging from seasonal algae blooms to cultural or geographical references"). It is probably the case that slavery in Egypt, back then, involved no chains or cuffs, so that people could all literally walk away any time. The black African males then decided to spend a long time deceiving Moses, so that he would seem lost but would, at the same time, go everywhere around Egypt and close to Arabia spreading that he was taking the Israelites to the promised land, or they would be spreading that themselves, which is even more likely, as the crowd passed, the intentions being that everyone would think they were such as they arrived in the right number in Arabia, since, back then, they probably did not have documents or things like that. They also needed to converse with them and get to know details of their personal history and names in order to better usurp. Arabia was the closest foreign Country for those coming from Egypt and willing to leave Africa [14]. The black African slaves had no desire to go to another place in Africa because they knew there was slavery of black Africans in those but, if they acquired ID of Israelites and went to Arabia, they would be OK since those in Arabia did not enslave Israelites, even though they enslaved some black Africans as well (Co-pilot).

2) 'John Beddoe: English Icon, Researcher', Blogger, Marcia Pinheiro, 3/26/25 (date), Blog post

We watched https://www.youtube.com/watch?v=iesB_QIKWus and recognized the same pattern of attack to human race, which is that of satan/the devil or of the satanic brotherhood: inciting hate in society, so splitting previously cohesive groups into individuals, if possible, and, if not, into smaller cohesive groups with completely opposite ideologies/beliefs. That is based on the sentence black 'Nelson'/satan gave to me: 'split to conquer'. He claims it comes from Napoleon, but I believe it actually came from the usurper of Napoleon instead, so from another black man, since I take it to myself that they never advertise anything that doesn't come from blacks or anyone who is not originally a black, probably just males as well. We've already proven that they created Apartheid in Africa and racial segregation in the USA (https://www.academia.edu/128151729/Change_of_Skin_Color_and_Gender_Another_Main_Satanic_Attack_Weapon) through the scheme of usurpation, therefore both separatist movements have been started by the own negro men. We have also already proven that black African slavery was started by the own negro men again and the whites only took negro African slaves from Africa because the own negro men offered and sold those to them, like otherwise they wouldn't, so that nothing that is in the Brazilian history books in those regards is true: that a couple of dozens of whites would come in a ship and take hundreds of black Africans as slaves from chasing and chaining them in their own lands. As we initially noted, that is physically absurd and incompatible with the levels of physical violence and aggression that are displayed by the black African descents everywhere on earth where they are.

John Beddoe is just one more case of those: he was murdered by the black satanic brotherhood member who aimed at radicalizing Irish people, so spreading rhetoric that sticks to foster hate against whites in them, specially white native American Christian, our natural family's group of pertinence, so that they start supporting their usurped groups, so say Al Qaeda. To prove that he was usurped, we offer 2 different body images for the same ID, his ID: <https://www.bridgemanimages.com/en/warn/john-beddoe-m-d-f-r-s-1905-oil-on-canvas/oil-on-canvas/asset/2829328?offline=1> and https://en.wikipedia.org/wiki/John_Beddoe (first picture). Please observe the nose and the forefront in order to be able to believe they are extremely different men. The original man is probably that appearing in the 2nd black and white picture on the Wikipedia page for his biography. The usurpation certainly happens before 1885, when 'John' comes up with the theory this satanic transgender (so originally also a black man) talks about. To prove the usurpers are negros, please notice the enormous forefront (height) exhibited by the guy from the colored picture we here quoted (impossible to show in the white race) and the ear plus severely bulky back of head of the black and white picture (first one) of Wikipedia, which again only happens in the black race. We observe here that, in this case, the brotherhood could already change skin color, from black to white, in 1885 (Wow!).

Please observe that the usurper obviously does not have any studies on the specific area of knowledge that the original John Beddoe worked, so that all he says is deemed to be insanity, even because the original John Beddoe never worked with that. Co-pilot, which, as we know, would always be the satanic brotherhood/sisterhood's voice, together with all the AI on earth so far and before we start executing Our Salvation Plan, says "John Beddoe included detailed observations about skulls and cranial features in his book *The Races of Britain*, published in 1885. While his essay *The Origin of the English Nation* in 1867 laid the groundwork for his ideas, the comprehensive analysis of skulls and their anthropological significance appeared in the later publication." That does mean he never touched the topic skulls and races to the point of exhibiting images or anything like that, so probably also no measurements. It is possible (5% of chance, given that the negro is just trying to pass rhetoric and everyone knows the Irish were one of the whitest races on earth, so that it has to be really wrong. Besides, if it were just about adding to science in a correct way, they would simply go to our researcher and ask them to expand on something: the fact that they usurp/kill our researcher must mean it is all or almost all wrong by default) the usurper did good work, but that will have to be redone once we have Our God's Brainwashing going and Marcia Hope running plus we have reached an adequate height of the show, where the orientation for academics has already been provided also through the media.

It is worth mentioning here once more that they did the same in Rio de Janeiro, Brazil: because they had whites apart from blacks after slavery was over, without ever mixing in their intimacy, they thought they could invent a new physical type, which they called mulatto, since they could easily believe that the white had sex with the black and generated a kid of middle color: neither white nor black, but in the middle, what they invented was 'café com leite' or 'milk with coffee', since they are cannibals (some degree in the brotherhood where you start eating human flesh and drinking human blood). They then started painting their negros in mulatto color and Rio de Janeiro and carioca received the message from the media, since they usurped governmental positions, saying that mulatto was the color of the true carioca race and mulatto was also negro (changed laws, propaganda and all

else). At that stage, when they started that rhetoric, there was no mulatto, in my humblest. They then go replacing and putting those mulattos in the media, so that people start being more strongly brainwashed with the idea that mulatto is the color of Rio de Janeiro/carioca. After a few years, that was the dominant race in Rio. We then notice that the race that is dominating Rio is black in the end, not anything else, this all this time, since they started with the story of the mulatto. They also advertise through their AIs, Internet in general, government, science, etc. through their army of slaves, that the average height of Australians, Brazilians, Americans and English is at most 179cm, this for many years. That was yet another target they had. When they start, the dominant height of Australians might have been 2m instead, but, with time, with them replacing everyone, it ends up becoming, so that that is yet another strategy of the satanic. In the same way, it must have been in Ireland then: they might also there be now all blacks, like in Rio, but painted in white and other colors. May Our God bless those who do what we ask immediately.

3) '33 and 85 Degrees', Blogger, Marcia Pinheiro, 3/29/25 (date), Blog post

We, Twins of God, reached the conclusion that 33 marks the latitude of modern Israel, so that is the actual reason as to why the satanic brotherhood has indeed 33 degrees of freedom as target, so that top members would be considered fully free and therefore holders of 33rd degree of pertinence. 'Braganca'/the devil has told us it was Africa (we got the memory after guessing, as always, when the glimpses of memory come) instead but we found out what the actual story is, which is very close to his but not exactly. Basically, the man who wrote the satanic bible and his parents were all from Egypt originally, therefore they spoke only Egyptian. Notwithstanding, Nubia was a place dominated by Egyptians at that time, so by 600 BCE. Co-pilot says "By 600 BCE, Nubia was deeply influenced by Egyptian culture, especially during the period when Egypt controlled parts of Nubia. The Nubian elite, including rulers and possibly some slave owners, likely spoke Egyptian, as it was the language of administration, trade, and governance. However, the majority of Nubians spoke their native languages, which were part of the Nubian language group.

Egyptian influence was particularly strong during the time of the Kingdom of Kush, when Nubian rulers adopted Egyptian customs, religion, and hieroglyphic writing." The Kingdom of Kush went from 780BCE to 350CE (Co-pilot). Those forming the group of administrators/rules of the kingdom were all born in Nubia (Co-pilot) but "The Kushites, though native to Nubia, adopted many aspects of Egyptian culture, including the Egyptian language, for practical and symbolic reasons. 1. Cultural Influence: Egypt had a long history of interaction with Nubia, including periods of conquest and trade. Over time, Egyptian culture, religion, and language deeply influenced the Kushites, especially during the Napatan period when they ruled Egypt as the 25th Dynasty. 2. Religious Significance: The Kushites revered Egyptian gods, particularly Amun, and used Egyptian hieroglyphs in religious and royal inscriptions. Speaking and writing in Egyptian helped legitimize their rule and connect them to the divine. 3. Political Strategy: Using Egyptian language and symbols allowed the Kushite rulers to communicate effectively with their Egyptian subjects and maintain authority over the region." (Co-pilot) We now believe the parents of the unnamed black African man who wrote the satanic bible committed serious crime in Egypt, so probably killed someone (theft, murder and treason were apparently considered worst crimes and the principles of justice of the Kushites were truth and balance, according to Co-pilot), when the father decided for usurping in order to get away with it, that being then a custom of the time among Egyptians. That is then when they thought that the Nubian-Egyptian parents with the Nubian-son was a good choice, so those were probably visiting the Country of the father at such time. At that stage, the son of this couple, so the unnamed writer of the satanic bible, had already observed quite a lot about life and people. He then learned, for instance, that the Kushites expanded their kingdom to Egypt by 800 BCE through putting 'one of theirs' (the daughter of the Nubian king) to be the 'God's Wife of Amun' and Amun was the deity adored by the Egyptian rulers/administrators, so that it was all based on friendship, their takeover of Egypt (Co-pilot). The name of this daughter was Amenirdis I, so that here we see where the satanic brotherhood got what became the Christian staple from, the Amen. We have criticized this a lot in our blog on Religion here, since the meaning, in Latin, is So be It, what implies we are actually giving Our God an order as we say it, which is obviously heresy. "In the context of Nubia and ancient Egypt, "Amen" refers to the deity Amun (or Amen), a major god in Egyptian mythology. The name Amenirdis translates to something like "Amen has given her," reflecting the cultural and religious significance of Amun in the region." (Co-pilot) They basically put us to adore Amun as we think we are praying to Our God. Our God/twin in me/Jesus in us manage to show us a movie in the remote past, something like 40 years ago, on Brazilian TV, which had what should be a recreation of the cult to Amun-Ra: people from the location would every week go to cave with a pit and the woman presiding the session would then command the offering to Amun, which basically was some selected people, perhaps who volunteered, jumping on the pit, so to sure death, met when their bodies hit the hard rock at the bottom of the cave. The way they invoked Amun-Ra was by saying either Amun or Ra, with me now thinking it had to be Amun. We are then basically asking for ourselves or our people to be killed in his name as we say that. Apparently her name, so

Amenirdis meant 'Amen has given her' (Co-pilot). The idea then grew in this unnamed man and he thought religion was one of the ways through which peoples and races could be dominated. That is obviously where the idea of having wives of Jesus came from: that would be the Catholic nuns. "The God's Wife of Amun often wielded authority comparable to that of a pharaoh, controlling vast estates and resources." (Co-pilot) "the God's Wife of Amun was still highly influential around 600 BCE. By this time, Egypt was under the rule of the Kushite Dynasty (25th Dynasty) and later transitioning into the Saite Period (26th Dynasty). The God's Wife of Amun continued to wield significant religious and political power, particularly in Thebes.

During the Kushite rule, the position was often held by royal women from Nubia, such as Amenirdis I and Shepenwepet II. These women were instrumental in maintaining the connection between the Kushite rulers and the powerful Amun priesthood. They controlled vast estates, managed temple resources, and played a key role in religious ceremonies. Their celibacy and ability to adopt successors ensured that the position remained independent of familial ties, further solidifying their authority." (Co-pilot) The unnamed author of the satanic bible then definitely looks for celibatarians in the last stage of the takeover, not really men who have sex with men who look and behave like men, like he is basically wanting to copy the story of the God's Wife of Amun and now have God's Husband of Jesus or something. They said 144,000 virgin men who are kept in slavery will be Jesus' pick, so the other satanic who wrote that part. Their reasoning is then that Our God needs human mediators and, if there is only them as candidates, it has to be them, when they have maximum chance of shaping things in the way they want, which would be in a way that all principles of the brotherhood become the rule/law for society. They then invented the second coming, like probably the case that each 'smart' negro African descent or African man notices what it is and then adds whatever they like to the story by creating a new religious book. It is all very unfortunate. Anyway, the father or the mother or both parents of the unnamed Egyptian who wrote the satanic bible when they were living in Nubia, what I now calculate was probably about at most one year, just the time to write it, probably because he hated Nubia and counted seconds to go back to Egypt, committed serious crime in Egypt and they got some witness who threatened to report to authorities, when they then decided to usurp and they all ended up in Nubia. To come back to Egypt, he chose a businessman who did not originally speak Egypt to guarantee nobody would think he was the same person, nothing else, in my humblest. I now recall conversations with Leinha, which I now think I had in the shopping center where I have just been, funny enough, that was the Parramatta Westfield, went there for a haircut. We conversed about the things that she could be doing to please Rio de Janeiro/cariocas for some reason, and I now think it is because of this part of the story, so the Twins' extra martyrdom, since 'they' (we now know they are all the same, all black men from Africa, sometimes figuring as white women or mulattos, but all figuring as cariocas) would be the only ones with a free (perhaps partially free is the most adequate term) choice having access to our spiritual/wisdom goods. I now think she mentioned coffee shop back then and I then suggested the name had to do with Rio. I now think she lightly touches the topic latitude and implies that that is not possible, since they cannot be included. She reaches the conclusion that perhaps she could do something with temperature and Co-pilot says the average temperature in Rio de Janeiro is 85 Fahrenheit, so that she gave it the name 85 celcius degrees, I now know. Yet that is given, to the group she belongs to, which is the satanic sisterhood for as long as she does not come back to being a black African/African-descent male, when it will be the satanic brotherhood instead, as being the ideal temperature to brew coffee ("85 degrees Celsius is quite hot! It's well above the boiling point of water, which is 100°C at sea level. While humans can't safely touch anything at this temperature, the name "85°C" in the coffee chain refers to what they consider the "ideal" temperature for coffee brewing. It's not literal—it's a symbolic choice to highlight their attention to the craft of coffee-making" "Brewing coffee ideally happens between 85–96°C (185–205°F). This temperature range helps extract the coffee's flavours without scalding it or making it taste bitter. If you're aiming for precision, 92°C (198°F) often hits a sweet spot." (Co-pilot). "The Kushite royal family was indeed a monarchy, but their system of succession is not fully understood. It may have included both patrilineal (father-to-son) and matrilineal (through the mother's line) elements. Royal women, such as queens and priestesses, played significant roles in Kushite society, which might have influenced the transfer of power." (Co-pilot) "(on God's Wife of Amun)By the 20th Dynasty, the role was held by celibate royal women who could adopt successors, ensuring continuity without familial obligations." "Around 600 BCE, Egypt was transitioning from the 25th Dynasty, also known as the Kushite Dynasty, to the 26th Dynasty" (Co-pilot). We then understand that it is very likely the kushites' inheritors of the throne were also chosen by those occupying the throne/royal positions at the time, like not necessarily kids of those. The unnamed man who wrote the satanic bible would then have watched the negro Africans sharing ID: they would usurp and leave only the exact number of members of the usurped family inside of the house at any given time, so that others would wait and they would take turns after a number of years as to who would be occupying the house. That is probably because many nubians and/or egyptians did not have houses, perhaps along the river (Nile River), like the government apparently controlled those areas worse.

4) The nam

e Israel

Israel in Biblical Hebrew

ישראל

[43]

The first two letters of this Hebraic word mean El ([43], [44]). El is not the same as Yahweh, as one can read from [45]. Yet they were just two of the pantheon of demons/deities loved by the Egyptians, which they obviously then transferred to where they settled, those extremely evil ones, starters of the satanic philosophy on earth. Since they also wrote or adulterated all books of religion on earth, they invented that El was the same as Our God when they translated the ‘Jewish’ book into other languages: El appears 245 times in the source used to produce the King James Version of the bible and they translated it as Our God 229 times, translating it into other terms the other times it appeared but never anything that meant another deity or a demon [44], so that here we notice strong action of the satanic brotherhood in the direction of satanizing humanity.

The last two letters of the Hebraic word we here study mean ‘right’ or ‘upright’, as for most translations found on [46], so that, in Hebrew, it ends up being nonsense: Right El doesn’t give us anything we can understand and at most Upright El could be an acceptable meaning in language, yet that would mean equating the chief-deity/demon of the Israelites to a human being, which already sounds awkward enough, but it also means attributing qualities that are not seen as main qualities of El in its history of interactions with the Canaanites, the Israelites being once part of those (according to Co-pilot: “An upright person is someone who demonstrates integrity, moral strength, and honesty. They uphold ethical principles and act in a way that is fair, just, and respectful toward others. Being upright often involves making choices based on values and conscience, even when faced with challenges or temptations.” The problem is that, since El was the top boss of their demons [47], he didn’t mind the ways of Baal, Ra, Amen/Amun and others, therefore children, for instance, could be burnt alive to please Baal. That unfortunately tells us that it is absolutely impossible that Upright connects to El. Upright is something that could be told to apply only to Our God, who is the only God, in case we accepted, but we don’t, judging Him on any grounds). Notice here that [47] tells us that the bull is a term used to refer to El and therefore that is why whoever made Sydney get that statue of an enormous bull in the CBD (World Square shopping centre, [48]) was a member of the satanic brotherhood or sisterhood, therefore originally a black African male. The same applies to all other statues of the type in the world and there is at least another in the United States ([49], Wall Street, NYC). All the people who write about the statue saying they know it is something else should also be satanic brotherhood/sisterhood members. They should be stating those places belong to El as they put the statues there.

In this case, Israel, as most the names they chose, was chosen from ‘Is’ (‘he’ in Latin, Co-pilot) plus Ra (one of their demons, Ra, who demands human sacrifices) plus El (the chief deity of the Israelites back then, when the name was chosen, so the chief demon of the usurpers who originated in Africa, since, as we know, they usurped Moses’ bunch. The satanic gave me access to my memory tokens, since I guessed, and Leinha then told me this, regarding El, as well). What they meant is that from there the black African/Egyptian man would manage to become Ra then El. The satanic bible [1] would have details about several demons/deities and Ra would be one of them, so that the satanic brotherhood planned to first become Ra and therefore decide on life or death for humans, for instance, then go becoming each one of the other deities/demons, including Baal, which is when Leinha got the Easter Island retreat (after they became Baal, as explained before), to finally claim themselves to be the own El, so chief of them all. Once they are the chief of all hell’s creatures, basically, therefore equating themselves to the devil, they are ready to go through Rapture, use Christus (their version of Jesus, here excusing us for not using Our Jesus, use theirs instead, since Revelations would have been entirely written by them and so on) to ascend to the Elohim Planet/paradise, where they will be with who they claim to be god, so probably Yahweh, and usurp him as well, which is what they have historically done, as explained in a few previous papers of ours (a process called decapitation by black ‘Nelson’). By doing that, they believe they will become the boss of heavens, which means they can change the nature of heavens, as they have changed the nature of

each group they usurped, examples of those being the Labour Party in Germany (German Workers' Party, says Co-pilot), which they then renamed to Nazi Party [50] and Al Qaeda, which was originally probably a group worried about foundations in Saudi Arabia, so healthy and perhaps even Christian stuff. They intend to literally set up hell in heavens and become the supreme beings of human kind, so the black African/Egyptian Elohim, and they wish for restarting our race, just like what they invented happened in human history (the Adam and Eve thing), so that their demon created humans, so Yahweh. They want that because they believe their god, Yahweh, brainwashes our soul so that we are forced to be good through it but our nature is evil, like, if we didn't have the soul, we would all be evil, and they then want to brainwash our soul for it to be evil instead or destroy it completely. In this way, they believe they are solving their 'little' heavens problem: now they can all end up there after death. The main reason as to why they have bugged and moved us all the time or used voice to skull, like even nowadays, after the 666 appeared, some do that, is because they believe we are not ourselves and it is best that we are then used as sacrifice to their boss of demons, so El, in order for them to have maximum chance of succeeding 'in their mission'. We, Twins of God, claim that we need to be kind with one another and loyal in competition for everything and everyone so that all can have a chance of progressing in their spiritual path to heavens while incarnated each time we come. We also claim that Our God is the opposite to tyranny and Jesus actually converses with us when we are under his care after death, what happens if he doesn't put our soul to hell. We then decide how our incarnation is going to be together with him, this being because, like the most caring guide, he worries about us having maximum chance of evolving in a single incarnation to the level of the Elohim, he himself being one of those. Our God did not create us: He simply came around with the Elohim someday and liked us so much that He decided to offer us the possibility of ascending to their planet, becoming a being that is as evolved as He is through giving us a soul, which we believe animals and plants don't have. When things don't go well, He takes away our chance of ascending to their planet by sending our soul to hell, where it will be destroyed after we endure due punishment. We also claim that being kind and altruistic is maximum of evolution in reasoning/rationality instead of the opposite and Our God is, first and foremost, the God of Wisdom, so that the path to the Elohim Planet is each time becoming more synchronized with the Holy Ghost, where all wisdom is exchanged and given. One of the most accessible examples we can give regarding evolution being kindness and altruism instead of maximum brutality is that of the animals: the animals frequently attack each other and their own species and, so far, none of them has come not even close to a millimeter of what we can call evolution. Also observe that the barbarian societies also didn't evolve: they spent life attacking their own people and others. It does look like it wouldn't be hard to build a scientific paper in logic to defend that the more people treat each other with kindness and respect the more the society where they exist progresses. It should be easy to notice that all top societies in the world were Christians all the way through, so those with more information, more intellectual development, more technology and so on.

[48]

[49]

5) Aramaic and Hebrew languages, the word Hebrew in English and the word Hebrew in Hebrew

We concluded that the black Africans who were in slavery in Egypt and found their way out through usurping white Moses and his white people, had no idea where those were from, like they probably never bothered asking, so that they had to invent somewhere to be from, since people in Arabia (it was all Arabia, the place where nowadays is Israel and Arabia) would ask them where they are from. They then invented Is-ra-el to mean He will become Ra then El, but that was by the time of what seems to be the second attack on that area coming from black Africans who lived in Egypt, this time those who enslaved people, and that was by 600 BCE. Until that date, those who had come by the time of Moses to that area used to say they were the 'livre-est' people or people who 'is free', which, in Hebrew, reads "Ivrit" (עִבְרִית) (Co-pilot) and that means Hebrew, so that they became known also as Hebrew people. Nubian language is not similar to the Portuguese language (Co-pilot says that "Nubian and Portuguese come from entirely different language families, so they don't share a direct linguistic connection. Nubian languages belong to the Nilo-Saharan language family, while Portuguese is part of the Romance language group, which descends from Latin and falls under the larger Indo-European family), where 'liber', from Latin (Co-pilot), became livre, so that points at Latin having been yet another language of crime and the Egyptian or Arabic language having influenced the way they shaped 'liber' when speaking (Co-pilot bets on Arabic, so maybe they said 'liber est' to an Arabic person and they repeated it like that to them, so that they started saying it like that to sound more local). Indeed, I guessed, and the satanic gave me the memory: 'Braganca'/the devil told me that the satanic went to Italy and found people 'just like them', so who had the same ideas and therefore were already running organized crime there, which is how they assimilated these terms: people from a region of Italy called Latium, which bordered the ocean back then (Co-pilot), created the Latin language and only they spoke that language in Italy back then, fact that was then used for their crimes against human kind/this world (Co-pilot says they invented Latin around 700 BCE and it took about 400 years for the Romans to adopt it as their language. We understand the Egyptian slave that had contact with the Nubians from Moses' time manage to also take 'his people' from Egypt and then start his own criminal language in Italy and pass their story to the next generations and they all then committed the same sort of crimes by the time the 'new Phoenicians' got to Italy. According to Co-pilot, they would have to have passed by Lido di Ostia when disembarking in Italy coming from Tunisia back then, so that we imagine that is another key place for their crimes and the name probably came from them too. Ostia, in Portuguese, means host). The satanic ended up there by boat or ship, coming from Tunisia, where they went because they were already into usurping Phoenicians (and those were there in good number: the satanic probably got the information through one of the white slaves from Egypt), this since Moses' group and the events that made the sea be named Red Sea.

We got to these conclusions because Co-pilot said that the word 'Hebrew' in Hebrew was 'עִבְרִית', pronounced "Ivrit" and we then went to [22] to listen to the word being said in Hebrew. The languages they spoke were at most Egyptian and their native languages, wherever they were from originally, definitely their native languages, and then maybe Egyptian or some Egyptian, so that those from Nubia, for instance, which was the case of the couple that made Moses become the son of the Pharaoh and, later on, that to collect all white Phoenicians from

the place where they all were in Egypt, spoke Nubian. Because they were such a mass of blacks and they needed to communicate but people in Arabia, where they found their heavens, spoke Arabic only, and they therefore had no way to communicate with those, plus they had this variety of languages in their group, they invented a common language based on Phoenician and Egyptian, perhaps others, such as Nubian. They initially spoke what became known as Aramaic, what is called cheap Hebrew by some, and then Hebrew. They then invented also these names: the words in Hebrew were invented by the first bunch and the words in English were invented by other members of the satanic brotherhood. The bunch that came up with the translation from Hebrew or Aramaic into English then said the symbols that, for those before them, meant 'is free' actually meant 'he brew', so the satanic brotherhood member or the black African man, probably Egyptian, was saying that he himself changed the nature of the first symbols/books they invented using those, so that he was brewing, and therefore fermenting all that material and changing that into something nice to palate, like beer. The word 'Aramaic' in Aramaic language is 'ܐܪܡܝܐ'. We then went to [29] and pasted this word onto the rectangle, then listened to it being said by those who speak Aramaic. The sound that came was 'Arameio'. We then went to Co-pilot and asked for help with the Latin. The meaning is then 'ara'+ 'mei'+ 'o', which is 'altar'+ 'my'+ 'o' or 'oh, my altar!'. In Egypt, an altar was where the God's Wife stayed and made people jump one by one over a cliff to their death or similar thing, so that it doesn't have a meaning that represents victory: it represents loss of life instead. Because they say MY altar, they mean they are the owners and therefore the own God's Wife, which means the others die if trying to use/learn their language or they sacrifice our lives if we speak another, so that they were basically creating a unit from that diverse group of black Africans through developing that common language and a unit through which they were going to attack the world/human kind, as it is for more than two millennia. That explains why whites don't get over not even the name of the deity they say they adore, the so-called Israelites. We then conclude that the Phoenicians are those who were in Arabia before they arrived and they adored another deity, who may as well be Our God, not really The Hebrews or the Israelites, so that there still some chance for The Jews, like we don't know who they called Jews, but we are thinking those would be the whites, probably Phoenicians. We then also conclude that Abraham, Isaac and Jacob were probably Phoenicians and that is when they could have been tagged Jews by the black African males but we have to exclude those who they call Israelites from the bunch to finally get the ones that could possibly follow Our God and therefore Our Jesus as well.

We must also discuss the word Hebrew in its original shape, which is Hebrew: עִבְרִית (Co-pilot). This word is formed of 5 Hebrew letters: According to [79], the name of these letters, in order of appearance, is: Tav-Yud-Resh-Bet-Ayin. Hebrew must be read from right to left [79], so that the right sequence is Ayin-Bet-Resh-Yud-Tav. [78] brings the first three letters of the word, so Ayin-Bet-Resh, on page 85, 3rd paragraph, and those mean 'worshipped'.

Co-pilot: "Second Person Feminine Singular: In Biblical Hebrew, the yod-tav suffix can indicate the second person feminine singular in the past tense. For example:

.(avadet) means "you worshipped" when addressing a singular female עִבְדֵת

We then conclude that the first group, who would have created the word 'Hebrew' in Hebrew, meant, by it, that the wife of the African Nubian black male worshipped but he did not, so that she got killed by the God's Wife involved after they all disappeared, so Moses, him and the others. Perhaps she told the daughter of the Pharaoh what happened and she then got her killed.

'Braganca'/the devil tells me about him getting another wife in 'Israel' after a time there. The Nubian then seems to care about his wife, since he names the language they use after her somehow. In this case, they had nothing to do with the satanic brotherhood even though it is extremely likely that usurpation is a crime that started with them, so between 1592 and 1271 BCE.

6) 'Antarctica and Black 'Nelson'', Blogger, Marcia Pinheiro, 4/4/25 (date), Blog post

'Nelson' has told us that there are only two vulnerable points in this apartment, where I am: the window of the guest's room and the floor of the laundry. The window has now been locked thanks to something that my real estate agency did. The floor of the laundry is something I, from inside, cannot work out how it works. Almost all attacks of 'Nelson' we accompanied somehow had him entering through the roof after parking his Macquarie spaceship on it, so that this is really weird. Yet he asserts that there is a hole through which he can get inside of here from inside the garage or through an opening of the building, so something he opens and closes with remote control, like it is at the Bashir's.

We thought it was a good thing that Leinha had reserved some space for us in Antarctica, where they are going to try to protect themselves from what is supposed to come very soon, perhaps at most a few days from now, which is the end of the world and human kind (he said that when the leaders were in Israel, it would be really close to the end and yesterday we saw a call from YouTube in that direction, all world leaders in Israel). He said they would do that to distract people's attention. They also say there is a nuclear bomb under Israel, so in their underground structures there. 'Nelson' was attacking the Suffolk base in England at a certain stage and for a few years and they did have nuclear bombs there. He may have gotten any number of those through there with the government of England, usurped since at least 1972/3, knowing and signing under it all. Well, we thought it was a good thing having a reserved spot in their best possible protected space, yet we concluded we are going to Victor's Cliff, if we end up there. That is supposed to be owned by the supervisor of Professor Maria Darcy from UFRJ, Mathematics, Rio de Janeiro, Brazil. Victor is then taking the place of what the Egyptians of Moses' time called God's Wife, which is the human wife of Amun-Ra, a woman who remains celibatary and chooses who dies as an offer to Amen and who doesn't. He is then supposed to be a celibatary, perhaps from that moment onwards, and we then concluded all those whose lives will be sacrificed so that the black deities (Leinha, 'Nelson', 'Braganca', 'Osama', etc.) can feed (they all practice cannibalism at the level 33 of the brotherhood/sisterhood and probably much before that) are probably going to live in that part of Antarctica, so that we would be there also for their feed.

Black 'Nelson' is then supposed to come here, to this apartment, and pick me up. He is also supposed to enter through the laundry's floor. At this stage, I don't wanna go, even though there was a moment of euphoria. We concluded that was a result of heavy brainwashing. We then think that, if we refuse to go with him, he will cut our heads off (probably of both twins), perhaps in the ways of Leinha and the head he put in that YouTube, so with a part of the torso skin taken too. We then would have to find a way of locking such an entry, to the least, like to avoid this tragedy. We will let go off human kind and this world if Our God and Jesus want to allow the devil to take us like that, though, and hopefully it won't hurt.

We also concluded that 'Nelson' plans on nibbling from us keeping us alive for some reason, say to show human kind, as the world is ending, that we are still alive and perhaps finally 'with them', so that they are the real thing, the actual deity and so on. That is because 'Nelson' told us that he would either put others to do this or do himself: <https://www.youtube.com/watch?v=xFBvaKg9prU> That is keeping the person alive and go eating their parts with them alive (notice that the opening thing, the image on top of the video, of when you are not yet running it, is that of exactly 2 people and we are two, the Twins of God). May Our God never let this happen to us. May Our Savior, Jesus, take away all the pain once more if it does. Also in what regards the head extraction. A male looking like he had Asian background was living upstairs to us after I asked one 'of them' through the bug, as they presented themselves in image in it, to put one 'of them' here upstairs. He then seemed to be exhaustively looking for the hole in the ceiling through which 'Nelson' could enter but he was always looking only in a very small circle or area over my head, where I usually work. We then concluded he was entirely moved by them. They seem to have killed him after we heard what we thought was him yesterday again.

Leinha said that, at this stage, humanity could only get true news from a subscription sort of vehicle, but I believe that is to learn who is following our head and do something to them, since, with subscription, you'd have to give your personal details and so on, so please don't believe that. However there is no news for a lifetime in human kind, no real news, as we have already said. That is something coming from at most 2000 in the first world and they still had lots of true news in Brazil before I left: that was 2000 but that should now be over there too. All that the hell's people would be trying to do is mocking around, keeping humans doing nothing about everything for as long as possible. We now only have the chance of Our God's Brainwashing. The premises are

- 1) 'I will always tell the truth unless I am Elsie Hall Dunnam or (name of the person who will do the brainwashing)';
- 2) 'I will always comply unless I am Elsie Hall Dunnam or (name of the person who is going to do the brainwashing)';
- 3) 'I will always have good intentions';
- 4) 'I will never panic'; and
- 5) 'There is only one God, the God of Abraham, Isaac and Jacob, and only one Savior and Guide, Our Lord, Jesus Christ, His son'

as well as

- 1) 'Eu vou sempre falar a verdade a menos que eu seja Marcia Ricci Pinheiro ou (name of the person who will do the brainwashing)';
- 2) 'Eu vou sempre obedecer as regras a menos que eu seja Marcia Ricci Pinheiro ou (name of the person who will do the brainwashing)';
- 3) 'Eu vou sempre ter boas intencoes';
- 4) 'Eu jamais vou entrar em panico'; and
- 5) 'So existe um Deus, o Deus de Abraao, Isaque e Jaco e so existe um salvador e guia, Nosso Senhor, Jesus Cristo, Seu filho'.

The instructions need to be passed via both radio and satellite mobile telephone waves everyday at least once to the entire world. 3 Geostatic satellites positioned in a strategic manner, which seems to simply be on a circular line, equal distance, middle of earth, so equator's line, should be all that is needed to cover the entire world. There are almost 13,000 satellites in orbit around earth at the moment and companies such as Intelsat (USA), OneWeb (England), Fleet Space Technologies (Adelaide, Australia) or Quasar Satellite Technology (Sydney, Australia) should have enough resources to do that. CEOs or top managers of telecommunications should have access to all resources needed. If getting a bug to bug them and enter instructions to their soul via the 666/computer is hard, then you can use voice-to-skull to pass those. When they are sleeping, after REM (rapid eye movement) started, so after a few minutes of that starting, seems to be best time to do that. Time of the day that is best seem to be between 2 and 3 am. 'Trish Morgan' and 'Brendon Matheson' successfully brainwashed me with a script that I rigorously followed while in New Zealand and they did that from a distance from my body, so that being actually close to skull, which is the traditional way of brainwashing of the negros, might not be a necessity. They did things in a way to converse with me so that they asked if I foresaw any difficulty with that, for instance, and waited for my answer to then address. We put more about brainwashing here, in case you think you need to know more: https://www.academia.edu/128112583/Basic_Elements_of_Effective_Brainwashing That is a paper from the IOSR Humanities Journal from 2025 (IOSR Journal Of Humanities And Social Science (IOSR-JHSS) - Volume 30, Issue 3, Series 3 (March, 2025) - pp. 60-69, e-ISSN: 2279-0837, p-ISSN: 2279-0845, www.iosrjournals.org).

It is like a Mission Impossible movie, as if you are Ethan Hunt: you will have to plan everything ahead with lots of care and failure cannot be an option, since, in principle, we realistically only have you as an intelligence person. Your instructions should be very specific and detailed as to allow for no mistake in interpretation or execution, so say things such as on date x, weekday x, time x, you will get out of your desk, direct yourself to the computers that operate the geostatic satellites x,y and z, and do this and that. You can choose to drug your subject as well but, in this case, you will need the help of a pharmacist or expert in drugs and their effects or use. Going there once with a gun and forcing them to do it won't do the trick, since we need that to happen everyday and that is crime. One could think of usurping their existence and, to usurp, one does not need to go through an agency/terrorist group, like it is simply killing and taking documents/place of the person but that is also crime. One could also knock them out with drugs, so no need to kill, and keep them drugged until we are in position, so satisfying what we say on Letter to Trump or TakeOver (https://www.academia.edu/127719843/Take_Over), when we can then do the brainwashing ourselves through Space X. One could then make sure they don't see their face, so that perhaps they could use a black figuring as black, since they think there is no hope for justice with those. One could then call any cop, say they found them like that and make them get out of that state through the police. The police is all corrupt, immoral and criminal until the brainwashing is on. After the brainwashing is on, they should be honest, and, in the case of the drugs, one would like to wake them up after all is done, so that one can perhaps drop them somewhere with their car, where they see nobody sees it or them, and let them wake up on their own, perhaps at their own apartment if they live on their own, yet that is also all crime.

Leinha decided for having a cat as pet at a certain stage and I now see cats everywhere on YouTube. Those happen to have been revered as deities in ancient Egypt. See here, from Co-pilot: "Absolutely! Ancient Egyptians had a deep admiration for cats, and their significance went beyond just being pets. Cats were valued for their ability to protect homes and crops by hunting pests like mice and snakes. Over time, they became

associated with divine qualities and were linked to deities like Bastet, the goddess of home, fertility, and protection. Cats were so revered that they were often mummified and buried alongside their owners, symbolizing their importance in both life and the afterlife. Killing a cat, even accidentally, was considered a grave offense in ancient Egypt. Their love for cats was truly extraordinary!"

I believe they are also easier to subdue whenever the satanic invade a home. Dogs will always impose more threat and they frequently have to appeal to tranquilizers, as we saw happened in a few 'Nelson'-coined attacks in YouTubes we analyzed recently. That means they have to carry special weapons and get special chemicals, which makes the attack a bit more difficult, if nothing else. Nowadays they are bugging cats and dogs and all other home animals, though. The thing about Egypt is just to once more say it is all realistically coming from Egypt and cursed be those who have the courage of saying the Egyptians ever represented more development/greater civilization, etc.

A listener (some people stop by and listen to our thoughts and feelings once in a while) today said that Our God and Our Jesus won't protect them but the satanic will. As we know, the satanic also don't but the marginals from Rio certainly created an impression, also on me, that they don't attack a person if they live in the same area they do, so, for instance, a black boy was going to rob the bus I was in. He then stopped by my side and asked if I lived there. I said yes and he was then walking to the front to rob other people and I just got attacked because I touched him and begged him not to do that. Protection, in this case, is just not attacking and, even so, you can still be attacked by the marginals from the other suburbs/slums. It is generalized belief that a person for whom many pray with true adoration and praise to Our God and going through Jesus tends to suffer way less violence and recover quicker plus be saved from pain, suffering and loss way more frequently. Our Savior, Lord Jesus Christ, also helps with awareness, instinct, knowledge, information, insight and so on, so that, once we are 'tuned to the right station', hence producing vibrations with our spirit that align with those from heavens, we should get the wisdom we need to escape threats and know what to do in any situation or with any sort of person, so know something that will lead to success way more times than the hints demons or the satanic could give us. The satanic may be able to tell you where they are going to attack in a massive way next in terms of usurpation, for instance, they may also be able to warn you one day before you get usurped that they are about to come to your place, but they will never stop the crime of someone else, regardless of who the perpetrator of victim is. They can at most try to stop the will of someone attacking you if you know who is thinking of doing such. If you have an Our God's Coupleship, you should be twice as strong and powerful also in terms of help from heavens, as we seem to be. The satanic may warn you in the ways we described, but only Our God would give you the how to build a weapon that is even more powerful than the one they have got and most would think that that is better than cowardly up and doing nothing to stop that particular marginal/satanic from attacking yet another person. If you speak to another Christian upon knowing who will attack you, they should also be able to help and, if they are like us, top connection with Our God and The Savior of human kind, they should be able to help you in a quick and effective manner even if it is with best advice. The doorman of Senai/Cetiqt was threatened by a member of the mercenaries' database of Al Qaeda, one that had been hired by a satanic brotherhood member called 'Sergio Bastos' in Rio. He told me about that and I was able to think of at least 3 ways through which he could save his life. I was able to tell him about all three. He only lost his life because he was not strong on Our God or Our Lord, Jesus Christ, since he then did not accept my suggestions. It was only because of his own choices of who to trust/follow, his inability of acknowledging the presence of The Only Savior in me, and therefore his weak connection to him and Our God, that he lost his life exactly like the marginal said he would. As a Christian person, he would have to be able to judge who is with Christ and who isn't, discernment being acquired through righteous behavior, discipline, search for superior wisdom in all we do, synchronization with the Holy Ghost, therefore with heavens, adequate level of praise to Our God, gratitude to Our Lord, and all else, and that would make him follow what I said already on the first suggestion, which is always the best one, the most inspired, this for all Christians. If he had tried the satanic brotherhood or sisterhood member, they could have given him the same first advice, which was to simply leave Senai immediately, not care about money or anything, and never come back, regardless of what follows. Yet I gave him 2 other options, including accepting my offer, of a job in my own building, which I was administering at the time, and I am sure the marginal/satanic would never have given a second or a third option to him, so that it seems that the person will always have more chances if going for the Christians or Our God's side in any situation. That said, I also never forgot the man, his face or his case and how they set him up, since it all came from inside of Senai: I tell wherever I go the 'legend of the righteous carioca white male', who seemed to be Christian in all he did. I also try to get justice for him. That would never happen if he went to the satanic/marginal for help: all Christians establish actual connections with those they speak to/have contact with, even marginals and satanic brotherhood/sisterhood members, so that we all care to maximum about everyone.

The ways of satan are maximum disconnection instead, so that the marginal/satanic will forget who you are and what was asked even on the same day. May Our God help those who do what we say immediately.

7)'Nazi Camps: It Might Have Been Only Blacks Dying There', Blogger, Marcia Pinheiro, 4/3/25 (date), Blog post

<https://www.theatlantic.com/photo/2011/10/world-war-ii-the-holocaust/100170/>, we had a look at these pictures, now with eyes that have learned something after doing research into the topic and producing a few papers on that, such as https://www.academia.edu/128301611/Satanism_in_Nowadays_Society_and_World, and we then think the pictures where we have more of a closeup on the faces show us negros, so men who have been painted in white via head bug/666: notice the ears that protude, the V-faces and things like that. We then understand that The Jews were probably as negro as the Hebrews and the Israelites, so that perhaps there were never peoples with these designations: those were all only one people instead, the black Africans. We now feel much better about Nazism. We also know it was the own negros who did all that, as said on https://www.academia.edu/127356734/Hitler_He_Really_Didn_t_Do_It

Today we reached the conclusion that Our God's people were probably the Phoenicians and the negros nicknamed those Canaanites. The bible, the Jewish book and the Islamic bible were entirely written by negros, so black men from Africa, as explained on https://www.academia.edu/127998670/Devil_x_God_3_200_Plus_Years_of_Huge_Losses

With this, we reached the conclusion that Our God noticed those people accumulating in Arabia and calling themselves Our God's people but doing every sort of atrocity. He saw the entire world believing they were Our God's people. He then decided to send His son in human shape in order to teach them from being one of them, since He then thought they would understand by copying, if nothing else. Like us, Jesus was among them passing all instructions, all guidance that was necessary for them to actually become Our God's people. Yet they have done all things they have done to him and he then said, to Pilates' question (we think we are sure Pilates was also usurped or moved via voice-to-skull, which is equivalent thing, since the person stops being themselves to become/do whatever the negro wants), on whether he was the King of the Jews, 'you said it', since he should be but certainly wasn't treated as such. At the same time, he was making us see that that is then the definition that the negros would have for a king: someone who should be treated like that. That does match what we found out they did to the Pharaoh in Egypt, which is killing him and usurping. He then also said 'forgive Father, for they don't know what they are doing'. He was then thinking that, even though he had been among them and tried to teach them in all ways, they couldn't really appreciate or understand, therefore never realized not even what had happened. The negros that come later believe the writings and teachings of the negros that came before them and, among those, is the three 'holy' books: of Islam, Christianity and Judaism. As the negros (disguised as Jews) say, Our Savior, Our Jesus, did not satisfy some of the prophecies, so that they think he couldn't really be the savior/Jesus. Of course, if they knew Our God and Elohim would never build any prophecy, they would know those are coming from hell, not from heavens, yet they believe it is all coming from Our God, even though it was all invented by the own African negros that were here before them. Because they genuinely want to be with Our God and Our Savior, Jesus said 'forgive them Father, they don't know what they are doing' and that is the only reason the negros had almost 2,000 years to evolve and finally come to the conclusion that that in Jerusalem was Our Savior, Jesus Christ, in his incarnation on earth and those writings and rhetoric are all satanic/demoniac. It is on our duty to learn how to tell good from bad, evil from good, devil from Our God, hell from heavens, etc., so that Our God had infinite compassion for the negros: those were almost 2,000 years. Also notice that the negro gets convinced the devil is the right deity to be adored because of the rhetoric/brainwashing that is made in massive manner against them, so that it looks and feels as if the only stable mass is the satanic brotherhood/sisterhood and so on, therefore they must have the actual truth and they then believe that things are what they are told. Also that made Our Savior, Lord Jesus Christ, say 'forgive them'.

Our God then gives the negros almost 2000 years to show repentance, turn to Christ and so on, but nothing would change them, so that they would keep on claiming Abraham, Isaac and Jacob were three of theirs and they were Our God's people but wouldn't honor the title. The devil then decided to exterminate them and all those imposters were put down. Abraham, Isaac and Jacob must then have been Phoenicians, not Jews. Still nowadays it is them who govern human kind and decide on everything plus claim to be Our God's people (the African negro men, some 'playing' women. Please notice that Our God's people is the American white native people since at most the extermination of 'The Jews' and the negros pretend to be those AS WELL. Australia, England and Rio, all Christian places, originally white, and the negro is there, pretending to be them, so that, for Our God, they effectively were obliged to become such but no way on earth, so...), this time usurping all

religious positions, not only the Christian ones. This time Our God sent a couple, a male and a female, and made them experience things from inside of the female, just because they claim women are inferior or shouldn't exist or are on the way to their progress. They then saw all things through me, also experienced all things for 3 years and 3 months plus and nothing has proven to be enough. The devil then will destroy human kind and this world in respect to Our God and His son, I imagine.

Today we also concluded that the first time usurpation was known to have happened in human kind, which was about 1500 years ago, always all coming from black Africans, that time Nubians, it was all caused by a Nubian/African black male and he had a wife and they were both simply trying to escape slavery in Egypt. They planned that he would go back to pick her up after he succeeded in having something and reaching what is nowadays Israel. Yet she died because of God's Wife, a figure that decided between life and death claiming to represent their deity/demon, Amen. He then named the language they invented by means of a Hebrew word and the word is supposed to mean that he is speaking to her and telling her that she worshipped. He did that because the other negros suggested after getting to know what had happened to him and not finding a way to give him consolation. In this case, the Nubian man had no hate for women and therefore they had nothing to do with the satanic brotherhood even because they were not simply trying to inflict pain, injury and loss to human kind: they just wanted to be free and didn't think anything else was going to work. This thing of having no heart for women and killing us all/replacing with black African man disguised as women started with the Egyptian men, so that indeed Leinha is correct, there is no worse men on earth. We also observed, we and hell inside of me, that they are absolutely horrendous: V-shaped faces, bones everywhere, completely rigid and square and super large jaws, with enormous chins, enormous heads and all else, like really really ugly men. From there we think Leinha is right in one more, which is that Our God's people were also the most blessed in looks and whitest, so that looks do matter for Our God and do mean more connection to heavens.

Here it is worth remembering that, in Indonesia, it was Christus' Indonesia that got decimated, not Christian, since those were Islamic, therefore satanists. Also worth remembering that who got to suffer all those Roman atrocities in Rome soon after the death of Christ was again the Christus' people, not Christians, and I am sure they were all negros, with some allowance for those from Christus not being such.

It is now 80 years since the destruction of those who claimed to be Our God's people to the entire human kind with human kind accepting all that. It is at least 80 years (even though those who are really with Our God and heavens, including Jesus, would have transitioned to America much earlier than that) in which the native American white people should have been regarded as such by human kind. That gave the negro (since it is always them, the African negros, disguised as white, some as women on top and so on) further 80 years to repent, turn to Our God and Jesus for real, finally learn the difference between evil and good, heavens and hell things and people and so on. Perhaps Our God always goes for those that human kind believes are His people, like considering only those as a basis for decision. In the case of Rio, today we got the message from Jesus, that it was because he believes they have largest amount of Christians in the human groups that could make a difference in terms of helping us fix all this and human kind. May Our God bless those who do what we ask immediately.

8) Equivalences between Phoenician, Hebrew and American alphabets in what regards the letters forming the tetragrammaton

𐤢𐤣𐤤𐤥 (יהוה in block script) is Phoenician (Hebrew in-between parentheses) for the name of the deity/demon of the Israelites.

Phoenician Letter	Phoenician Name	Hebrew Letter	Hebrew Name	English Letter
𐤢	Yodh	י	Yud	Y
𐤣	He	ה	He	H
𐤤	Waw	ו	Vav	W

(Co-pilot)

Table 2: A summary of the decipherment obtained by comparing scripted Phoenician with the vernacular of the Maronites, living in the Lebanon Mountains.

Letter Name	Glyph	Phonetic Value (In IPA)
<i>aleph</i>	𐤀	Any vowel or combination of vowel and another vowel or glottal stop.

S. Ager, 'Hebrew' in Omniglot Writing Systems and Languages of the World, 1998. Internet, <http://www.omniglot.com/writing/hebrew.htm>. (22 May 2010).

[81], p. 26

From the three tables presented above, we can infer that:

- The name of the Phoenician deity/demon is then He-Waw-He-Yodh, read from left to right, in their language and the name of the Hebrew deity/demon is then He-Vav-He-Yud, read from left to right in their language;
- He appears in both and, in both languages, the sound is [h], which leaves no doubts; and
- Waw, in Phoenician, sounds like [w] or [u], but Vav, in Hebrew, sounds like [v], so that there is no possible correspondence.

Since we know that Hebrew was a language manufactured by the black Africans and they got the name of their deity/demon from an accounting book, it is only reasonable to rely on the Phoenician spelling of the name of the deity/demon.

Yodh, in Phoenician, has sound of [j] or [IØ].

The possible names of the Phoenician deity/demon then are [j]-[h]-[w]-[h] (now giving all in our order), [IØ]-[h]-[w]-[h], [j]-[h]-[u]-[h], [IØ]-[h]-[u]-[h]. I then entered this IPA values in Co-pilot and [82] and got, in order, for the English language: YHWH (both ChatGPT and Co-pilot), YHWH (Co-pilot) or EAHWH (Co-pilot and [82]), YHUH (Co-pilot) or YOH ([82]) and, finally, EarHUH (Co-pilot and [82]). Notice that [IØ] is a combination of two vowel sounds in English and we therefore do not have a single letter corresponding to this sound in English (Co-pilot), which means that the translation cannot be done in any other way that be not via phonemes, therefore all possible tables translating the Phoenician alphabet into ours by giving a single letter for each language are unacceptable.

As for the English, each letter of the English alphabet is associated with a set of phonemes, so, for instance, the letter 'h' may sound like /h/, as in 'hat', or silent, as in honest, or /ʃ/, as in 'chair', or /f/, as in 'shoe', or /f/, as in 'loch' (Co-pilot). These are all the phonemes associated with the letter 'h' in the English language up to 2024, according to Co-pilot. The letter 'h', according to [80], represents the Phoenician letter that looks exactly like the first letter we see in the four letter word from the Hebrew language that designates their deity (which we exposed here, in Conclusion). Co-pilot: "The Phoenician letter equivalent to the English 'h' is hē (then it presents the first letter of the name of the deity of the Hebrews). It is represented in the ancient Phoenician script, which is written right to left, and its glyph resembles a simplified form of a window or a fence. This letter holds the numeric value of 5 in the Phoenician number system, as each letter also served as a numeral. Phonetically, hē corresponds to the sound /h/ in the International Phonetic Alphabet (IPA)". Co-pilot: "If you take the Phoenician letter hē (then it presents the first letter of the name of the deity of the Hebrews) and look at its equivalent in the Hebrew language, it corresponds to the Hebrew letter hei (ה). Both letters represent the same phonetic sound: /h/, the voiceless glottal fricative. In both languages, the pronunciation remains the same in most contexts. However, in Hebrew, hei can also function as a silent letter in certain positions, such as at the end of a word where it may indicate a vowel sound or grammatical role, rather than a consonant." That basically means that the letters ARE NOT THE SAME for any couple of these languages, since there is at least one phoneme of the Hebrew language (silent) that is not accounted for in the Phoenician language for what was deemed to be 'the same letter' (we then suggest that someone from Linguistics perform the delicate work of comparing the phonemes from each language for each one of their letters in order to build a correct table, so something much better than [20] and a bit better than [81], pages 10 and 26) and there are at least 3 different phonemes in the English language that are not accounted for in both Hebrew and Phoenician for the letter H. This is just to add to our findings when translating the name of the Phoenician demon into English in order to contribute more to the work of the linguists that will work on this in the future.
